

University Of Agriculture Faisalabad

History of Agri

More than a century old, UAF is a learner-centered institution in which every individual is inspired by a rich campus life and challenged enough to pursue and celebrate knowledge, creativity and public service.

Vision of Agri

The foundation stone of UAF was laid in 1906 with the name of Punjab Agricultural College and Research Institute, Lyallpur which was upgraded as the West Pakistan Agricultural University, Lyallpur in 1961 and now the University of Agriculture, Faisalabad since 1973. In the 21st century, UAF will push across the frontiers of knowledge to create, in service to the public, unique interdisciplinary programs of teaching, research, and outreach essential for agricultural and rural development. UAF will become an exemplar of a university that prepares citizens as work force and for leadership in a diverse, global and technology-driven environment.

For a knowledge-based economy, the university becomes a key element of innovation systems both as a creator of new knowledge and ideas based on research, and as a provider of human capital. The purpose of the Vision 2030 Strategic Framework is to articulate an action plan that defines a path to elevate UAF's position as one of the internationally recognized research universities and a gateway to knowledge for agricultural and rural development in Pakistan. It provides the overarching themes for more detailed plans that will be based on imperatives current for the time and that will shape strategic thinking during the respective planning cycles in the future years.

Mission Of Agri

In order to make Pakistan a prosperous, food-secure and resilient nation, UAF aims at the following goals

- To advance knowledge through basic and applied research
- To revamp human resource development by transforming the pedagogic process from teaching to learning
- To facilitate lifelong learning by providing agriculturally focused academic programs
- To promote agrarian reforms through research based agricultural policy
- To disseminate knowledge to the community through extension and outreach
- To promote sustainable farming and food systems, from production through consumption

Departments

❑ UNDERGRADUATE PROGRAMS Of Agri

FACULTY OF AGRICUTURE

- ❑ B.Sc.(Hons.) Agriculture (Morning & Evening Program)
- ❑ BS Forestry (Morning & Evening Program)
- ❑ B.Sc.(Hons.) Environmental Science (Morning & Evening Program)

FACULTY OF VETERINARY SCIENCE

- ❑ Doctor of Veterinary Medicine (DVM) (Morning & Evening Program)
- B.Sc. (Hons.) Microbiology (Morning & Evening Program)
- Doctor of Pharmacy (Pharm.D.) (Morning & Evening Program)

FACULTY OF SCIENCES

- BS Software Engineering (Morning & Evening Program)
- BS Computer Science (Morning & Evening Program)
- BS Information Technology (Morning & Evening Program)
- BS Bioinformatics (Morning & Evening Program)
- BS Data Science (Morning & Evening Program)
- BS Artificial Intelligence (Morning & Evening Program)

FACULTY OF ANIMAL HUSBANDRY

- BS Animal Sciences (Morning Program)
- BS Dairy Science (Morning Program)

FACULTY OF AGRI. ENGINEERING & TECHNOLOGY

- B.Sc. Agri. Engineering (Morning Program)
- B.Sc. Food Engineering (Morning Program)
- B.Sc. Energy Systems Engineering (Morning Program)
- B.Sc. Environmental Engineering (Morning Program)
- B.Sc. Textile Engineering Technology (Morning Program)

FACULTY OF SOCIAL SCIENCES

- B.Sc.(Hons.) Agri. & Resource Economics (Morning & Evening Program)
- B.Ed. (Hons.) (Morning Program)
- BS Economics (Evening Program)

- BS Sociology (Morning & Evening Program)
- Bachelor of Business Administration (BBA) (Morning & Evening Program)
- BBA(Agribusiness) (Morning Program)
- BS Commerce (Morning & Evening Program)

FACULTY OF FOOD, NUTRITION & HOME SCIENCES

- B.Sc. (Hons.) Food Science & Technology (Morning & Evening Program)
- B.Sc. (Hons.) Human Nutrition & Dietetics (Morning & Evening Program)
- B.Sc. (Hons.) Home Economics (Morning Program)
- Bachelor of Fine Arts (BFA) (Morning & Evening Program)

UAF COMMUNITY COLLEGE, PARS

- BS Botany (Morning & Evening Program)
- BS Biochemistry (Morning & Evening Program)
- BS Chemistry (Morning & Evening Program)
- BS Computer Science (Morning & Evening Program)
- BS English (Language and Literature) (Evening Program)
- BS Mathematics (Morning & Evening Program)
- BS Physics (Morning & Evening Program)
- BS Sociology (Morning & Evening Program)
- BS Software Engineering (Morning & Evening Program)
- BS Statistics (Morning & Evening Program)
- BS Zoology (Morning & Evening Program)
- B.Ed.

UAF SUB-CAMPUS, TOBA TEK SINGH

- B.Sc. (Hons.) Poultry Science (Morning & Evening Program)
- BS Animal Sciences (Morning Program)
- BS Computer Science (Morning Program)
- BS Chemistry (Morning Program)
- BS Zoology (Morning Program)
- Bachelor of Business Administration (BBA) (Morning Program)
- BS English (Language and Literature) (Morning Program)
- B.Sc. (Hons.) Human Nutrition & Dietetics (Morning Program)
- BS Information Technology (Evening Program)
- BS Biochemistry (Morning and Evening Program)
- BS Botany (Morning and Evening Program)
- BS Physics (Evening Program)
- BS Mathematics (Evening Program)
- B.ED

UAF SUB-CAMPUS, BUREWALA – VEHARI

- UAF SUB-CAMPUS, BUREWALA – VEHARI
- BS Computer Science (Morning & Evening Program)
- BBA(Agribusiness) (Morning Program)
- B.Sc. (Hons.) Food Science & Technology (Morning Program)
- Bachelor of Business Administration(BBA) (Evening Program)
- BS Chemistry (Evening Program)
- BS Botany (Evening Program)
- BS Zoology (Evening Program)
- BS Mathematics (Morning and Evening Program)

DIPLOMA PROGRAMS

- Food & Nutrition
- Food Preparation and Preservation
- Selection and Stitching of Clothes
- Art & Craft
- Health & Sanitation
- Child Care
- Pakistani Rural Life
- Home Management
- Communication
- Teaching Practices
- Vegetables & Flower
- Animal Husbandry
- Fisheries
- Islam Kay Quaid e-Arkan

□ **POSTGRADUATE PROGRAMS**

- MSc(Hons): Agronomy, Entomology, Horticulture Sciences, Plant Breeding and Genetics, Soil Science and Forestry.
- MS Plant Pathology
- MSc (Hons) Environmental Science
- MSc (Hons) Agri.Biotechnology
- MSc (Hons) Climate Change in Agriculture
- MSc (Hons) Seed Science and Technology
- M Phil Biotechnology
- MSc (Hons) Agro Ecology and Sustainable Land Use
- MSc (Hons) Agri. Extension
- MSc (Hons) Rural Sociology
- MSc (Hons) Rural Development
- MSc (Hons) Agri. Economics
- MSc (Hons) Environmental and Resource Economics
- MSc (Hons) Development Economics
- MSc (Hons) Agri.Engineering
- MSc (Hons) Water Resource Engineering
- MSc (Hons) Energy Systems Engineering
- MSc (Hons) Environmental Engineering
- MSc (Hons) Food Engineering
- MS Textile Technology
- MSc (Hons) Food Technology
- MSc (Hons) Food Technology
- MSc (Hons) Food Safety and Quality Management
- MSc (Hons) Food Service Management
- MSc (Hons) Dairy Technology
- MSc (Hons) Human Nutrition and Dietetics
- MSc (Hons) Home Economics (Food and Nutrition)
- MSc (Hons) Home Economics (Human Dev.and Families Studies)
- MSc (Hons) Home Economics (Clothing and Textile)
- MSc (Hons) Poultry Science
- MSc (Hons) Animal Breeding and Genetics
- MSc (Hons) Livestock Management
- MSc (Hons) Animal Nutrition
- MS(Management) Marketing Specialization
- MS Software Engineering

Office Hours of University Of Agriculture Faisalabad

- **Monday - Friday** 8:00am- 16:00pm

University OF Agriculture Financial and Scholarships

Financial Assistance to needy and deserving Students is extended in following Forms:-

- **Scholarship Program:** A form of financial assistance that do not require repayment. Award is based on merit, financial need, or a combination of both merit and need. Scholarships can come from different sources and have various awarding criteria.

University is awarding 10% merit scholarships in addition to need based scholarships

- **Internship Program:** An internship is a work-related learning experience for students who wish to develop hands on work experience in a certain occupational field. Most internships are temporary assignments, can be shorter or longer depending upon the program requirements. These may be paid, unpaid or partially (in the form of a stipend). University is making its all out efforts to arrange paid internships for the students in coordination with Government Departments/private organizations.
- **Work-Study Program:** A form of financial assistance in which students perform work in exchange for money for their education. A number of students are working on various research projects sponsored by HEC/ Government Departments/ organizations.
- **Student Loan Scheme:** Students of this University also apply to National Bank of Pakistan to get interest free loan in order to support their education. Students are facilitated in processing their applications to NBP, University Branch. Loan Scholarship Scheme is also underway for financially weak students.
- **Miscellaneous Facilities:**
 - Tuition Fee Concession (50%) to 10% students of the class by Dean Faculty.
 - Facility to deposit dues in installments for financially Constraint students.

UNDERGRADUATE Scholarships

Punjab Educational Endowment Fund (PEEF)

Vary every year/ Merit Based/
Special Quota/

1. Minorities
2. Govt. Employee Scale 1-4
3. Orphan Students

4. Special Students/Disable

5. Meritorious students

Ehsas Scholarship

Scholarship will be awarded to
Needy and highly Talented students.

1-1

st semester & only morning
students are eligible.

2- monthly Income Less than
45000/-

3- Self Finance & Evening Students
are not eligible instead of those
courses who are only offered in
evening discipline

Sultan Ali Shukro

General Scholarship form,
Metric to onward documents,
Income Certificate

FACULTY AND STAFF

**The Message from
Vice Chancellor**

The technological challenges facing agriculture in the 21st century are more daunting than ever. Land and water are becoming increasingly scarce. The source of growth to satisfy increased demand for food and agriculture products should be met through gains in productivity. The university of Agriculture Faisalabad has made an enormous impact through trained manpower in the field of agriculture and allied sciences, as well as through technologies developed. The scientists here are aware of the challenges and opportunities, and there, are working hard to address them. The university has recently released an innovation catalogue to upscale and commercialize its research outcome for the benefit of masses. That includes 101 ready to commercialize technologies. There are new varieties of cotton and mustard with potential for mechanical harvesting, three new hybrids of maize with high pro-vitamin A content, ten new varieties of mango, new breeds of backyard poultry, biofertilizers, mechanical and agricultural engineering innovations, water and energy solutions, new vaccines, value addition to agricultural products and many more.

Vice Chancellor 's Message (Alumni)

Dear Friends and Patrons!

The university has entered a new growth phase of human resource, infrastructure and enrollment. We have more than 19000 students in degree programs and around 10000 others. More than 130 new faculty appointments were made during the year. Our development portfolio has risen above six billion. Our internationalization programs have also touched new heights with more than 600 exchange visits in- and out of country. We organized international handball tournament with 12 teams from seven countries and repeated international tent pegging events. The German government funded ICDD (International center for development and decent work) has been renewed for another five years. The

USAID funded CAS-FSA (Center for Advanced Studies in Food Security and Agriculture) has been officially launched in collaboration with the University of California, Davis. A Chinese government funded Confucius center has started working on the campus. A French cultural center operates twice a week. Our students went to Turkey and Malaysia on exchange visits. And, one of them spoke at the UN General Assembly and another one participated in the Nobel Prize ceremony held at Oslo, Sweden. Several new international programs are in the making.

Vision Statement (Alumni)

The UAF Alumni Association will be an engaging and mutually beneficial lifetime link between University of Agriculture and its community of alumni

Mission Statement (Alumni)

UAF Alumni Association's missions are to: Keep in touch with your Institution, Communicate with Your Fellows, Post your Updated Personal Details, Post your Professional Achievements, Provide services and benefits for current students and alumni, Browse the events and reunions Photogallery

ORIC Office Of Research, Innovation & Commercialization

Introduction:

The Central Hi-Tech Laboratory, University of Agriculture, Faisalabad, UAF's principle analytical laboratory and it is a schedules office under the aegis of the Office of Research, Innovation & Commercialization (ORIC). Central Hi-Tech Laboratory was established as part of Japan International Co-operation Agency (JICA) program in 1997 and provides research facilities to students / researchers and industries. The laboratory housed some sophisticated equipments like Scanning and Transmission Electron Microscopes, Atomic Absorption Spectrophotometer, Gas Chromatograph and High Pressure Liquid Chromatograph. Apart from the researchers from UAF, this Lab. has also facilitated researchers from other institutions. The notable institutions of Punjab and KPK provinces includes Government College University, Faisalabad; Pir Mehr Ali Shah Arid Agriculture University, Rawalpindi; Government College Women University, Faisalabad; Islamia University, Bahawalpur; Sargodha University, Sargodha; Bahauddin Zakariya University, Multan; Khwaja Fareed University of Engineering and Information Technology, Rahim Yar Khan; University of Engineering and Technology, Taxila; Women University, Multan; Lahore College Women University, Lahore; University of Gujrat; Allama Iqbal Open University, Islamabad; Punjab University, Lahore; Christian College, Lahore; College of Veterinary & Animal Sciences, Jhang; University of Education, Faisalabad; University of Okara and University of Faisalabad and Ghulam Ishaq Khan Institute of Engineering Sciences & Technology, Swabi. We feel proud to announce that this is the only ISO certified laboratory within UAF that helps to improve the analytical/research credibility and authority

as well as the overall efficiency. The Central Hi-Tech Laboratory gets management system as ISO-9001:2015 in accordance with TUV, Austria Bureau of Inspection & Certification (Pvt) Ltd. This Laboratory applies quality management system in line with above standard for the scope of "Support and promotion of scientific research through provision of analytical services and skill development through hands-on training on analytical instruments.

Equipment

The Central Hi-Tech Laboratory (CHTL) was established in 1997 at the Faculty of Agriculture, University of Agriculture, Faisalabad with the cooperation of Japan International Co-operation Agency (JICA). This Laboratory houses some high technology instrumentation and has a potential to generate internationally accepted analytical data. Students/researchers from different departments and institutes, UAF analyzed their samples. The analysis facility is also extended to the students/researchers from other universities and research organizations. Apart from the analysis mandate, this laboratory also offered one week customized hands on training for students/researchers/faculty on various modern analytical instrumentation.

Scanning Electron Microscope Plant and animal tissues, microorganisms, soil samples, fibrous materials, alloys and other such materials can be observed on Scanning Electron Microscope. This microscope has resolution of 4nm and magnification range of x20 to x200,000. **Atomic Absorption Spectrophotometer** Variety of elements and minerals can be analyzed by Atomic Absorption Spectrophotometer. The available Hollow Cathode Lamps required for analysis of different substances include Ca, Cd, Co, Cr, Cu, Fe, Mg, Mn, Ni, Pb and Zn.

Gas Chromatograph Fatty acids, aldehydes, ketones, essential oils, hydrocarbons, pesticides, insecticides and variety of organic compounds can be analyzed by GC. It is equipped with capillary columns, Flame Ionization Detector (FID) and Electron Capture Detector (ECD). **High Pressure Liquid Chromatograph** Toxins, vitamins, drugs, steroids, sugars and variety of organic compounds can be analyzed by HPLC. The facility of different modes of HPLC (Isocratic & Gradient) using C-8 & C-18 columns is also available along with detectors including UV/Visible, Fluorescent, Refractive Index & Conductivity detector.

Ultra-Centrifuges Ultra-centrifuge is used to separate and isolate compounds like proteins, enzymes, nucleic acids, carbohydrates etc. Two ultra-centrifuges 65ß and CP100a has a maximum speed of 65,000 and 100,000, respectively. **Lyophilizer/Deep Freezing Apparatus** Variety of biological samples can be crystallized /lyophilized at -60oC under vacuum condition for long term storage.

UV-Visible Spectrophotometer Double beam Spectrophotometer is capable of spectral analysis of nucleic acids, proteins and other organic compounds using advanced software. **Liquid Nitrogen Generator** It is used to produce liquid nitrogen. The capacity of this LNG is 10L/day

Oscilloscope An oscilloscope is a laboratory instrument commonly used to display and analyze the wave form of electronic signals. In effect, the device draws a graph of the

instantaneous signal voltage as a function of time. In-circuit IC Tester In-circuit tester (ICT) is a testing device where an electrical probe tests, checking for shorts, opens, resistance, capacitance, and other basic quantities which will show whether the assembly was correctly fabricated.

Refractometer Refractive index of solutions can be measured digitally Camera Fitted Microscopes Stereo, Phase contrast and Polarizing microscopes are available to observe variety of specimens. The facility of soft copy of the images is also available with the help of digital camera attached with microscopes.

Atomic Absorption Spectrophotometer Variety of elements and minerals can be analyzed by Atomic Absorption Spectrophotometer. The available Hollow Cathode Lamps required for analysis of different substances include Ca, Cd, Co, Cr, Cu, Fe, Mg, Mn, Ni, Pb and Zn.

Rate List of One Week Hands On Training

CHTL rate list for one week customized hands on/ general operational training is given below;

Sr#	Training	Duration	Training Charges(Rs)		
	UAF Students (Rs.)	UAF Faculty (Rs.)	Other Organizations (Rs.)		
1.	High performance Liquid Chromatography (HPLC)	1 week	2000	5000	7000
2.	Atomic Absorption Spectrophotometer (AAS)	1 week	2000	5000	7000
3.	Scanning Electron Microscope (SEM)	1 week	2000	5000	7000
4.	Proximate Analysis	1 week	2000	5000	7000
5.	Gas Chromatography (GC)	1 week	2000	5000	7000
6.	General Laboratory Equipment (Spectrophotometer, Flame Photometer, Ultra Centrifuge, pH, EC DO meters etc.)	1 week	2000	5000	7000

Right to Information (RTI)

Under Article 19-A of the Constitution, RTI (Right to information) is a fundamental right of every citizen of Pakistan to have the right to have access to information in all matters of public importance subject to regulation and reasonable restriction imposed by law. A citizen in addition to a government department can also have access to information of a private body which is substantially financed by the government. RTI is based upon the principle that citizens being tax payers are owners of public information. RTI boosts transparency, accountability, elimination of corruption and improvement of public service delivery.

The information got through RTI enables citizens to hold public officials accountable for their actions, to comment upon their performance, to conduct survey on the basis of data received through RTI and to indicate gaps and weaknesses of public bodies.

The government also benefits from RTI by becoming aware of gaps and weaknesses of public bodies. RTI also helps public officials by making it easier for them to carry out their duties more efficiently.

UAF Facilitation

UAF considers that enlightenment of citizens to hold public officers/officials accountable is legal and ethical right and for this very reason and keeping all the efforts done by RTI Commission to maintain transparency, UAF has taken following immediate actions to join hands in hands with RTI Commission Punjab

Public Relations & Publications

Department of Public Relations and Publications (PRP) consists two components: (i) Information and Pictorial Publicity Section (IPPS), and (ii) University Press.

The University maintains well organized Public Relations and Publication Services for projection of the institution and highlighting the achievements of the University scientists, scholars and students in print and electronic media. The Campus News usually appears once a week to keep the staff and students updated about the University activities and other information like quotations, vacancies, PhD theses/synopsis defence, scholarships, employment opportunities, tender and auction notices etc. A Newsletter has also been launched in the light of Higher Education Commission's prescribed criteria to bring forth the pleasant vistas of the varsity.

The PRP department is responsible for issuing handouts, pictorial publicity regarding functions and ceremonies arranged by the various departments of the University. The department is providing information about the infrastructure of University disciplines, which are being taught in the University, schedule of admissions in various degree programs and other information when it is demanded.

A number of scientific journals, books, calendars, prospectuses, leaflets, contingent bills, and bulletins including University Annual Report are regularly published by the University Press. Many of these publications are in great demand among the general public and enlightened agriculturists.

Directorate Of ITRCDB

University of Agriculture, Faisalabad is enjoying IT services since 1996. IT services department was part of Department of Computer Science. With passage of time IT requirement increased and become compulsory to compete with global world. So, there was a need of fully equipped and independent department to cope with the drastically changing requirements. Therefore, the development of the Information Technology Resource Center and Data Bank (ITRCDB) Came into existence in December 2010.

Directorate of ITRCDB is providing three types of services to the University which includes Web Based application Development, in house developed Campus Solution and Internet Services backed with fully equipped data center

Directorate Of Procurement & Inventory Control

University of Agriculture, Faisalabad Procurement and Inventory Control Department move far beyond the traditional belief that procurement's primary role is to obtain goods and services in response to internal needs. To understand how this role is changing, we must understand what purchasing is all about, starting with the primary objectives of Directorate of Procurement and Inventory Control.

Directorate Of Academics

Message from Director

Our mission is to provide an educational experience that is rigorous, negotiated and relevant. Every day is a new day to learn new ideas and share with students in class rooms, laboratory, seminar hall or workshops. We are always aiming to improve and expand our curriculum, facilities and technology. We believe that every student is unique and has his/ her own unique talent. As an instructor, it is our responsibility to sharpen their minds and communication skills, nurture their talents and help them reach their peak of excellence through active learning. Our education program emphasizes on the development of a global spirit by enhancing their learning skills with a focus on ethics in multicultural environments.

Activities

Learning Management System (LMS)

Learning Management System (LMS) was introduced to achieve quality of education, applying variety of teaching-learning strategies and using appropriate distance delivery modes, access to teaching literature, online attendance, assignments and submission of results.

Faculty Orientation Program

This activity was undertaken to enhance the professional skill of the young teachers using modern techniques of teachings through information technology, i.e. Multimedia, Email

Group management, Time management and stress management. Furthermore, it improves the communication skills of the teachers with the students in the class room, as well as research project management in the allocated budget and prevalent circumstances.

Teaching Assistantship

Teaching assistantship for one semester after the completion of his/her course work has been deemed mandatory for all Ph.D. students in UAF since February 2015. All the teaching departments/ institutes notify the names of TAs in each course and intimate to the Director Academics. The teaching departments/institutes make arrangements for the maintenance of attendance register. The TAs assist instructor/supervisor in teaching practical and theory of undergraduate courses, to evaluate examinations, assignments, and record grades. Prepare course material under the guidance of faculty members, upload course material online and also maintain online attendance of respective courses. The TAs make sure to be available at least for 2 hours walk in time for students during office hours for discussion and guidance of courses. At the end of semester, the course teacher evaluates the TA as per evaluation performance. After successful completion of TAship, the Ph.D. student is awarded with a certificate for rendered services by the Director Academics.

Large Class Management

Module System was introduced for management of basic courses enrolled by large numbers of students. Audio/visual equipped Lecture Theaters were developed with the basic vision to use expertise from the teacher respective to course content.

Massive Open Online Courses (MOOCs)

Massive open online courses through distance education were introduced to cope with rapid increase in population, growing cost of on-campus courses, social and institutional problems of people desiring for higher education.

Hybrid Teaching System

Hybrid teaching system is introduced for different courses which employ a mixture of online and face-to-face activities. Hybrid instruction refers to classes where there is a carefully planned blend of both traditional classroom instruction and online learning activities.

Revision of Scheme of Studies/ Revision of Courses of All Degree Programs

As per SOPs provided by HEC, the UAF revises scheme of studies and course contents every 3 years on a regular basis. Recently UAF team visited UC Davis, USA to understand and develop latest scheme of studies/courses in line with UC Davis. The UAF in collaboration with U.S.-Pakistan Center for Advanced Studies in Agriculture and Food Security (USP-

CAS-AFS) recently launched an experiential learning based master program in Veterinary Practice.

UAF-VEPP Collaboration

UAF in collaboration with virtual education project Pakistan (VEPP) was introduced to provide free online courses through video conferences to interested students in UAF.

Directorate Of Student Affairs

The Directorate of Students Affairs is an important academic and administrative support meant to enhance the experience of students at all stages of their stay in the University through provision of a range of professional services. The office of the Students Affairs maintains a liaison between the University administration and the students. It facilitates the students in addressing their problems pertaining to academics, co-curricular and social activities, sports, library, examination, transportation, health, fees, career planning and discipline. It also ensures peaceful co-existence among the students with their diverse ethnic, cultural and religious back grounds. This Directorate ensures the image of the University at local, National and International level. The Directorate is headed by a Director, assisted by three Associate Directors and six Deputy Directors in addition of other supporting staff of various levels. The Director Students' Affairs is also the chairman of Campus Advisory Committee, which is a statutory body to look into the incidents of misconduct and indiscipline at the campus and recommend appropriate penalty to the students found involved in an act of misconduct and indiscipline. The Director Students Affairs also act as Secretary of the Discipline Committee, an Appellate and Statutory body of the University.

Directorate Of External Linkages

The changing role of the universities demands a greater connectivity and strong linkages with the local, national, regional, and international communities. With the evolving role of the university, the Directorate of External Linkages is becoming an important office to promote national and international collaborations and to develop partnerships with public, private and non-government institutions/ organizations. This office also has the responsibility to attract international students, placement of university students and faculty in high ranking universities, facilitate interaction between faculty and industry and exert a pull for financing

of training, research and development activities of the university by national and international donors, alumni, civil society and agro-based industries. Recently, activities in the directorate have extended manifolds and almost every week the university signs an MoU, agreement for collaboration and international/ national partnership agreement to facilitate teaching, research and development in the university and to bring good to lives of the farming community of the country. The university has signed about 41 MoUs with the Govt. Institutions, 16 MoUs with Industrial and 45 MoUs with the Organizations on National level and 146 MoUs with different countries on International level, including development of partnership with high ranked universities of the world for mutual exchange of staff and students and collaboration in research and development endeavours. Significantly UAF is host to projects with Australian universities (Queensland, University of Western Australia, Charles Strut University and ACIAR), JICA projects in water management, French Agro campus for Food Science and Technology, EU funded program on range management, and Pak-US Science and Technology collaborations with Texas A&M University and University of Georgia and University of California, Riverside. The University of California, Davis is also partnering up with UAF in various R&D activities including Human Resource Development. Ali Akber Group has recently entered into partnership with the UAF to combine strengths for R&D in seed and water management domains. The directorate also coordinates with the international organizations for resource and environment conservation in their efforts to make the world a better place for the future generations.

Directorate Of Sports

Prof. Dr. Bushra sadia

Chairperson Sports Board

Directorate Of Farms

Directorate of Farms was established in 2006, the objective behind this idea was to adopt the modern technologies of agriculture & its allied fields on large scale for the demonstration to the students and end users (farmers). This adaptive modern research based stations of crop production through utilizing best available resources at farms, proved highly successful. It also adopted better technologies which increases crop production, decreases cost of production and increases soil fertility.

It has been also facilitating all departments of the University regarding research of Graduate and Postgraduate students by providing inputs i.e. Land, farm machinery with POL, seed, fertilizer, labour, pesticides etc. Farms also conduct experiments of M. Phil and Ph.D scholars

under varying agro ecological conditions on their requests. It provides advisory services to the farmers regarding advanced production technologies of all crops.

It concentrates on efficient utilization of resources like fertilizer and irrigation through better management like time of application, rate and method of application for increasing farm income. Directorate of Farms also adopts modern scientific crop protection measures (biological, cultural and chemical) for controlling insect, pests and diseases. Directorate of Farms also multiplies seeds of high yielding crops i.e. wheat, Sarsoon, Sugarcane, maize etc and provide to farmers community twice a year (Rabi & Kharif Kisan Convention).

In Livestock and Poultry Farms selection of improved breeds are the successful stories like UniGold birds (Poultry).

Directorate Of Outreach

Directorate Of Water Management Research Centre

Water Management Research Centre (Stiving for Climate Smart Agriculture) is a strategic research and training Centre established at University of Agriculture Faisalabad. Mindful of the increasing importance of water resources in Pakistan and its contribution to management of dwindling water resources, the project entitled “Water Management Research and Training Program for Rural Development” was initiated by the University of Agriculture Faisalabad at Shahkot, District Shiekhpura during 1979-80 with a view to providing the needed training to the in-service staff of the On-Farm Water Management (OFWM) and Agriculture Extension services of all the four provinces of Pakistan. The project was to encompass all aspects of

water management, to generate and adapt water conservation technologies. The contribution of Center for improving integrated water resources management within irrigation communities of project area was recognized and as a result Centre was promoted from a development project to non-development water organization: “Water Management Research Centre” during 1989. The Centre not only maintained its research impact on the farming community but also expanded its research collaborative activities from national to international level. Moreover, the Centre has been successful in developing a number of water conservation technologies, running a number of national and international projects and signing MOUs with the national and international water related organizations.

KEY TECHNICAL STRENGTHS

Conducting research on waterproductivity as affected by irrigation methods andmanagement practices.

Designing and development of water conservation technologies.

Monitoring and evaluation of groundwater resources.

Arranging Farmer’sday, carrying out technology transfer/outreach programs for the demonstration and dissemination of high efficiency irrigation technologies i.e. Raised Bed Technology, drip and sprinkler irrigation.

Developing participatory approach, arranging stakeholder consultation, including education, training, and capacity building of Farmer’s Organizations (FOs) for the operation and management of feasible efficient irrigation techniques.

Directorate Of Financial Assistance And University Advancement

Professional and Higher studies in Pakistan during the recent years have become very expensive. In view of the increasing expenses day by day, it is becoming very difficult for the resource poor section of the society to educate their children. Under the circumstances, financial sponsorship of deserving and merited students may help to create soothing impact on the community particularly the rural masses and bring a positive and healthy social change in the long run. True to its motto "Education with public spirit and market dynamism" the University has upgraded its existing Student Financial Aid Office (SFAO) to increase opportunities for student financial assistance and university advancement. The University has add to its organizational structure, the Offices of Student Financial Assistance, University

Advancement and Career Services under the Director Student Financial Assistance and University Advancement.

Endowment Fund Secretariate

The Government of Pakistan and United States of America recalling the close ties in scientific and technological cooperation signed an agreement to create a UAF-US Collaboration for Strengthening Agriculture Academia and R&D Faculty Development, Technology Transfer and Product Commercialization (FDTTPC) Program to reap the mutual benefits of agricultural research through joint research projects and exchange of scientists.

Under this agreement, University of Agriculture, Faisalabad (UAF) has established an Endowment Fund.

The income generated through investment of the principal funds shall be used for Endowment Fund activities/projects in line with the Pakistan's long term research/development goals of the agriculture sector.

The goals focus on food security, poverty alleviation and promoting broad based equitable and sustainable agriculture.

Quality Enhancement Cell

We are fully committed to implement QAA policies here in our university by establishing a formal Quality Enhancement Cell. Our university is one of the 10 universities where QEC has been established by HEC. We strongly adhere to the concept of Quality Assurance in institutions of higher learning with enhanced levels of International compatibility through capacity building.

I am confident that QEC will work hard to improve the quality of higher education being imparted in University of Agriculture, Faisalabad and to bring it at par with most of the international professional universities.

The QEC at University of Agriculture, Faisalabad is strongly committed to implement the guidelines and policies of Quality Assurance Agency Higher Commission Education (HEC) in its true spirit. The Higher Education Institutions in Pakistan are facing great challenges especially in comparison with international standards. Our QEC- UAF Mission Statement and Objectives reflect the adoption of quality enhancement culture at University of Agriculture, Faisalabad.

The worthy Vice Chancellor Prof. Dr. Iqar Ahmad Khan is strongly committed to improve the overall quality standard at University of Agriculture, Faisalabad. His personal interest in facilitating the QEC - UAF is a significant step in promoting quality education in the country. The QEC-UAF will deliver quality and standardized education to produce competitive graduates in all disciplines.

About Quality Enhancement Cell, University of Agriculture, Faisalabad (QEC-UAF)

University of Agriculture, Faisalabad has managed to have remarkable achievements at national & international level and the establishment of QEC under the guidelines of HEC is one of them. The QEC-UAF was established in 2005. The standard of education in Pakistan is not up to the mark of international standards, as our degree is either not accepted or rarely recognized as compared to other countries degree. To fill this gap and to enhance the overall quality of our education system, HEC has set up Quality assurance agency. University of Agriculture, Faisalabad contribute towards overall improvement of education system in the country. The QEC-UAF is involved in surveys related to students, staff and different departments, capacity building of faculty and staff and the facilitating the Self-Assessment Process.

Senior Tutor Office

The University of Agriculture, Faisalabad (UAF) aims at educating its students for life. The core belief it imparts to the sensibility of the taught here is to seek purified earning which is free from all sorts of spiritual and moral defilement. The achievement of such lofty objectives has been ensured through installing a thoroughly refined and wider system of pastoral and academic support that promotes positive well being and inculcates superior work ethics for professionalism and character building of the students. The pastoral activities (literary and artistic pursuits other than the obligatory academic work) of the students are looked after by the Office of the Senior Tutor. The office of the Senior Tutor holds a key organizational position along the institutional hierarchy to manage different literary, artistic, and cultural activities within UAF. Senior Tutor works under the direct supervision of the Vice Chancellor through Principal Officer (Students' Affairs). Given the bulk and sophisticated nature of multifarious tasks his office is mandated to perform, the Senior Tutor is also assisted by two Associate Senior Tutors (both males), and four Deputy Senior Tutors (three males & two females); all of whom have their penchant recognized in the particular creative or artistic fields they pursue. Collectively, the designated Senior Tutors administer the tutorial group meetings which are conducted by 134 tutors and 134 co-tutors to promote artistic, co-curricular and cultural activities in the university's main campus in Faisalabad. Additionally, the Senior Tutor office supervises and collaborates with UAF sub-campuses at Pars, Burewala and Toba Tek Sing through its team, comprising one Associate Senior Tutor (Male) and Two Deputy Senior Tutors (one male and one female) from within the faculty at each of these sub-campuses. The Senior Tutor makes sure that every undergraduate student of the university has a personal tutor. Such a supervision and leadership role also attributes to the Senior Tutor office the status of an Art and Literary Forum, whereby it organizes exclusive as well as collaborative activities of the eight different clubs, namely Na'at and Qir'at Club, The Quiz Club, Society of Agri Writers (SAW), The Debating Club, The Art Club, UAF Media Club, and Virsa Music Society. Again, all of these cultural and artistic clubs thrive under the auspices of the Office of the Senior Tutor because it is the same office which ensures that the

activities through the personal tutorial system are perfectly streamlined in a way that the tutors keep referring their outshining and flamboyant tutees to be the regular members of the eight university clubs for further polishing their particular skills and for enabling them to represent the university in various competitions. The tutorial group meetings are not just targeted to explore and hone the aesthetic and creative potential of university students, each personal tutor also tries to maintain a close contact with students to ensure that they are managing their co- and extra-curricular activities in a way so as not to disturb their routine studies. As an Art and Literary Forum within UAF, the Senior Tutor office works out its elaborate scope in regularizing both the internal working strategies as well as outside engagements (such as co-curricular competitions at university, national and international level) of the aforementioned seven clubs. Thus, the broader framework of the Senior Tutor office seeks to ensure the implementation of a proper code of ethics and practice among students while promoting and recasting Pakistani cultural values and heritage in a milder mood.

Department Of Estate Management

The University has established Estate Management Department headed by the Principal Officer (Estate), comprising of Estate Officer, Chief Security Officer and Head Gardening Branch. All of the three wings of the Estate (Security, Sanitation and Gardening) work independently under their respective Heads. The main objective of this wing is to maintain law and order situation over the campus with fool proof security measures, maintain cleanliness/beautification at the campus with its Sanitation and Gardening branch, maintain inventories of the residential colonies, facilitate the process of housing allotments and monitor/implement the SOPs for the residents.

Teaching Resource Center

The Teaching Resource Center (TRC) will provide resources to new and existing faculty to improve their teaching skills and effectiveness. The center will engage faculty, teaching assistants, students, staff, and community members to work in a collaborative environment to create rich, service/engaged learning and teaching experiences.

The Center will have the capacity to:

Establish and maintain long-term partnerships across the campus and between the campus and the broader community

Connect systematically with related initiatives on the UAF campus (such as general education, distance education, assessment, graduate/undergraduate research, etc.)

Provide workshop and summer institutes on how to use new technologies in the classroom

Leverage campus and state collaborations so that each benefits the other

Provide support between and among student service areas (including advising, tutoring, counseling, etc.), productively involving both staff and faculty

Collaborate with faculty, staff, students, community members, and programs engaged in related forms of experiential, community-based teaching, learning, and scholarship, thereby helping to strengthen such efforts and generating new models for effective curricular engagement across a range of venues (e.g., undergraduate research, learning communities, etc.)

Garner external funding in support of the teaching, learning, and scholarship activities associated with curricular engagement

Support the university's mission to build excellence in teaching.

University's mission:

The Teaching Resource Center will be integral to the academic mission of the university.

The university's mission statement includes the following TRC-related commitments:

Assist faculty members in the development of course syllabi that incorporate not just a list of lectures and laboratories, but that include content on teaching strategies, grading practices, office hours, etc.

Provide the framework for a new Excellence in Teaching Award each year for faculty members to acknowledge improvement and excellence in teaching performance. This could be based on student evaluations and could even require student nominations for the award.

Development of a small teaching grants program that would provide funds for faculty members to develop new course materials. These funds could be used for the actual materials, or for release time to develop them, or to travel abroad to train on them.

Close interaction among students, Teaching Assistants (TAs), faculty, and staff in support of intellectual growth and personal development.

Emphasize personal and social responsibility in all fields of study.

Use assessment to deepen learning and establish a culture of shared purpose and continuous improvement.

Create an overall focus for the improvement of teaching excellence at UAF

Foreign Student's Advisor

The Foreign Students' Advisor Office (FSA) at the University of Agriculture, Faisalabad (UAF), Pakistan, is dedicated to helping foreign students with the admission process and beyond. The office promotes internationalization at UAF by increasing the number of foreign student admissions to degree programs in agriculture and related sciences. UAF strives to provide a comprehensive education that encompasses knowledge, skills, and values while also forging friendships between students' home country and Pakistan. FSA assists interested international students with documents needed for a Pakistani visa when they start their academic journey; FSA offers academic guidance and mentorship and facilitates social events to help with cultural integration. Furthermore, we arrange activities at the university for international students providing opportunities to learn about Pakistani culture. With our support, foreign students can smoothly transition into their new lives as students in Pakistan. FSA is committed to facilitating student mobility and administering international funding awards. We aim to foster an inclusive environment for foreign students at UAF.

Currently, we are hosting 102 foreign students from 9 different nationalities studying at UAF, including Afghanistan, Benin, Gambia, Sri Lanka, Sierra Leone, Somalia, Syria, Togo, UK.

The students study in different degree programs at UAF under international scholarships/fellowships.

ACADEMICS

INSTITUTES

National Institute of Food Science and Technology

The National Institute of Food Science & Technology (NIFSAT) originated as the Food Technology Section within the Punjab Agricultural College and Research Institute, evolving into a department in 1962. Recognizing the significance of the food sector in Pakistan, the department was upgraded to the Institute of Food Science and Technology in 2003, subsequently becoming the National Institute of Food Science & Technology in 2007. Currently, NIFSAT leads in offering degree programs in Food Science and Technology, Human Nutrition and Dietetics, Food Safety and Quality Management, Food Service Management, and Dairy Science and Technology.

NIFSAT consists of six sections and a center, including Nutrition & Food Safety, Grain Science & Technology, Dairy & Meat Technology, Fruits & Vegetables Technology, Oil & Sugar Technology, Food Microbiology & Biotechnology, and the Food Technology Transfer Centre (FTTC). Moreover, NIFSAT maintains robust collaborations with public and private sector institutions at national and international levels. Since its inception, the Institute has been instrumental in producing skilled professionals for the food sector. In 2014, NIFSAT

emerged into a 7th faculty in the University namely Faculty of Food, Nutrition & Home Sciences. Prof. Dr. Masood Sadiq Butt was appointed as the founding Dean of the Faculty.

Mr. Clyde W. Eddy served as the first Head of Department. Subsequently, Mr. Muhammad Bakhsh Bhatti, Dr. Sultan Ahmed Tremazi, Dr. Abdul Latif Rasoolpuri, Mr. Riaz-ur-Rehman, Dr. Muhammad Shafiq Chaudhry, Dr. Haji Muhammad Chaudhry, Dr. Ali Asghar, Syed Aulad Hussain Shah, Dr. Amjad Ali, Dr. Javaid Aziz Awan, Dr. Faqir Muhammad Anjum, Dr. Nuzhat Huma, and Dr. Tahir Zahoor have all held positions as Heads/Chairmen/Director/Director General of the Department of Food Technology during different periods. Currently, Prof. Dr. Imran Pasha is serving as Director General of NIFSAT-UAF.

Institute of Soil & Environmental Sciences

Pakistan's economy is dependent on agriculture which contributes about 18.9 % of the gross domestic product. Agriculture is one of the largest sectors of economy which provides 42.3% percent of the labor force. Agriculture is providing raw material to various industrial sectors of the economy. Many of the manufactured exports of country like textile are also dependent on agriculture. About 60% of industrial units in Pakistan are directly dependent on agriculture for raw material. Pakistan has been declared as the 4th largest producer of cotton, 5th in sugarcane, 8th in wheat, 10th in rice; and fourth largest producer in the world of milk production by Food and Agricultural Organization of United Nations.

Pakistan's agricultural productivity is due to its fertile soils spreading from mountains of Himalays in north to plains of Punjab and Sindh in south. The soil is a nonrenewable natural resource which is very important for sustainability of agriculture, environment, and ecosystem. Healthy soils can only ensure agricultural productivity, environmental quality, and ecosystem sustainability. However, in the era of industrialization and urbanization, soil and water resources are under stress due to various degradation phenomena like soil degradation through soil erosion, salinity/sodicity, nutrient depletion, low organic matter, shortage of good quality irrigation water, environmental pollution, and climate change. In addition to soil degradation, environmental pollution and climate change are also dependent on soil quality as soil is recipient of all types of pollutants and serves as major terrestrial reserve of carbon. Soil degradation is instrumental in triggering environmental degradation and climate change. The concern regarding the deterioration of safe environment is growing with the passage of time and measures must be taken to protect the environment against the degradation. There is a dire need to protect the precious, nonrenewable natural resources like the soil, water and environment against degradation processes. This is prerequisite to enhance soil productivity potential on sustainable basis while protecting the environment through development of suitable technologies and management practices.

Institute of Soil and Environmental Sciences has transformed itself to face the challenges of the new era. Keeping in view the requirements of new era, this Institute has widened its scope and has witnessed paradigm shift in its academic and research activities from traditional domain of Soil Science to Environmental Sciences and Climate Change. Currently, Institute is endeavoring to excel in academics and research in the fields of Soil, Environment and Climate Change. To meet the academic and research requirement of the modern era, Institute is providing education and conducting research in the fields of soil and environmental sciences and climate change.

Institute of Horticultural Sciences

Institute offers undergraduate and postgraduate courses in the relevant disciplines. It is equipped with the complete range of resources needed to meet the modern demands for education and research. Institute has well established Experimental Orchard, Square 9 which is among the oldest orchard established during 1912 to boost up horticultural production in the Punjab area. Today a good collection of tropical and subtropical fruit plants is maintained and research facilities on nutrition, physiology, rootstocks, unfruitfulness and production of fruits like citrus, mango, date, guava, jujuba and grapes etc. are provided. Another garden of 120 acres is also established recently at Post-graduate Agriculture Research Station (PARS) to cope with the increasing needs of student research. A germplasm bank of date palm, citrus and mango is established to provide genetic diversities for research.

Further a fully established landscape studio is established to meet the needs for advanced landscape designing techniques. Facilities for scanning, digitizing, printing and CAD software are provided. A Science and technology project entitled “Export quality cut flower production and extraction of essential oil of Rosa” is being run by institute and three Ph.D and many M.Sc. students are working on various aspects in this project. Recently a Citrus Sanitation laboratory is established in the institute to establish a modern Citrus Nursery of Certified Plants through sanitation by microbudding and micrografting techniques in vitro. Department has laboratories for graduate research where extensive range of modern apparatus is available. A well established tissue culture laboratory is there to demonstrate propagation and other operations related to all sort of plants in vitro cultures.

Under Olericulture section research is being carried out on nutritional trials in different vegetables, hybrid seed production of vegetables, effect of dates of planting and spacing on growth and yield of vegetables and Tunnel production of vegetables (Cucumber, Tomato, Chillies). A mushroom laboratory was established to facilitate the following aspects: development of spawn production technology, substrate preparation and improved method of composting for button mushroom, cultivation technology of summer white button mushroom, standardization of cultivation technology of Oyster and Chinese mushrooms and Post-harvest handling of mushrooms.

Medicinal and aromatic plants section was added in institute with the objectives: Exploration, exploitation and conservation of potential indigenous medicinal & aromatic plants, Development of production and post harvest management technology of medicinal and aromatic plants, Development of protocols for preservation of plant parts, identification/isolation of active ingredients, Providing education, training to the growers and consultancy services to the medicinal and aromatic plant industry. In addition institute has a well established Vegetable Research Area, Floriculture and landscape area for ornamental plants and a fruit plant nursery.

A new addition to the institute is a postharvest lab which has been developed with international assistance of Australian Centre for International Agri. Research and local industry. Currently, with international collaboration from Netherlands, a project on Controlled Atmosphere Technology of horticultural crops is under-way.

Institute of Physiology and Pharmacology

The Institute of Physiology and Pharmacology was established in 2014 by upgrading the former Department Physiology and Pharmacology primarily formed in 1962. The new set up has been generated in the light of visionary idea of the worthy Vice Chancellor.

Prior to the creation of this institute, its competent department has been actively engaged in running various research projects. Most of the research work has been presented in national and international forums.

The institute has a custom of magnificent research work in the fields of Endocrinology, Pharmacokinetics, Xenobiotic residues, Pharmacological and Toxicological evaluations of medicinal plants. Laboratories have been equipped with latest instrumentation over the years. Institute has also collaborations with private pharmaceutical industries.

Institute offers major courses for DVM programs and minor courses for many other Departments/Institutes including NIFSAT, Environmental Sciences, Home Economics, Zoology and Animal Husbandry etc., at both undergraduate and postgraduate levels. Institute also offers M.Phil and Ph.D. programs in the subjects of Physiology and Pharmacology.

Institute of Business Management Sciences

Vision

To be Pakistan's lead institution in business education and research in the changing environment with global recognition.

Mission

IBMS aims to produce efficient and responsible business leaders and researchers equipped with modern professional skills by;

Imparting contemporary business education and capacity building through effective teaching and participatory learning

Promoting entrepreneurship among students through discovery, innovation and competition

Conducting need based research on emerging business issues and disseminate knowledge to stakeholders through community participation and outreach activities

Grooming personalities of students by motivating and engaging them in co-curricular and extra-curricular activities

Developing national and international linkages for sustainable improvement in business education and research

Introduction

The Institute of Business Management Sciences (IBMS) was established in February 2011 by merging the Department of Marketing and Agribusiness (established in 1961), Department of Business Management Sciences (established in 1997) and WTO Cell (established in 2004). IBMS aims at imparting education in the fields of Management, Agribusiness, Marketing, Human Resource Management, Finance and Information Technology. IBMS offers degree programs at undergraduate, post-graduate and doctoral levels and prepares students for managerial positions in public and private sector organizations serving across the globe.

Admissions are granted to degree programs entirely on merit basis. The success of our programs is not only due to our highly qualified and dedicated faculty but also due to support of UAF (University of Agriculture, Faisalabad) management and other related organizations. We focus on developing the personality and capabilities of our students through personal guidance in combination with presentations and extensive discussions in the classroom. The students are encouraged to interact with the faculty and the executives from the business industry, banks and other related sectors.

We believe that furnishing our students with state of the art training in business management and information technology is the way through which we facilitate them in attaining their career objectives. Focusing on academic and practical research, teamwork and commitment to instill the best, we achieve our objectives along with the intention to serve the society at large.

IBMS seeks to identify and remove constraints on the student's full participation, so that individuals may explore their capabilities and interests and develop their full intellectual and human potential to face the challenges of professional life. To rejoice discovery and critical thought, we enable our students to generate ideas and free expression. We also encourage our students to participate in extracurricular activities. To this end sports and other social events are organized on regular basis. The rationale of our existence is to educate students who are able to restructure market place according to ever changing market conditions.

The Faculty of IBMS is also conducting research on important issues faced by the national economy. In this context, faculty has won various national and international research grants and also has published its work in journals of national and international repute. IBMS is also trying to flourish academia industry linkages through various seminars, workshops and training programs organized in collaboration with industry, NGOs and other organizations.

Degree Programs Offered

The Institute of Business Management Sciences (IBMS) is presently offering following degree programs:

B.Sc. (Hons.) Agriculture (Major: Marketing & Agribusiness)

Bachelor of Business Administration (BBA) (Specialization in Marketing, Banking and Finance, HRM)

BBA (Agribusiness) - 4 Years Joint Degree Program offered by University of Agriculture Faisalabad and IBA-SUKKUR

BS (Commerce) Morning & Evening

MBA 2 Years Evening (Specialization in Marketing, Banking and Finance, HRM, MIS, Agribusiness Management)

MBA-Executive 2 years Weekend (Specialization in Marketing, Banking and Finance, HRM, MIS, Agribusiness Management)

MS-Management (Agribusiness)

MS-Management (Marketing)

MS-Management (Finance)

Ph.D. Agribusiness

Future Plan:

IBMS intends to initiate Ph.D. in Business Administration along with establishment of a National Center for Entrepreneurship and Agribusiness Development.

Institute of Agricultural Extension, Education and Rural Development

Institute of Agri. Extension, Education and Rural Development was upgraded in 2012 by merging the Departments of Agricultural Extension, Agricultural Education and Agricultural Information Center. The Department of Agricultural Extension was established in 1962. Institute is offering various undergraduate and postgraduate degree programs. Undergraduate degree programs include: B.Sc. (Hons.) Agri. Sciences major in Agricultural Extension, Associate Degree in Education (ADE), and B.Ed. The postgraduate programs include: M.Ed., M.Phil. Education, M.Sc. (Hons.) Rural Development, M.Sc. (Hons.) Agricultural Extension, and Ph.D. Agricultural Extension. At present a number of doctoral students are perusing their studies and working on various projects in the Institute. The Institute organizes in-service training courses for governmental and non-governmental personnel inducting nominees of Pakistan Army (both at commissioned and non-commissioned levels), Banks, NGOs and other agencies responsible for agricultural and rural development. Various national and foreign funded research projects on food security, mobile apps, gender empowerment, communication, rural development and related social issues, cyber Extension are few of the significant projects of the Institute. The Institute is also heavily involved in the management of distance education programs of the University.

Institute of Agricultural and Resource Economics

Institute of Agricultural and Resource Economics was established in mid-2012 by merging three departments i.e. Department of Agricultural Economics, Development Economics and Environmental and Resource Economics. The new set up was a result of the visionary thinking of the Vice Chancellor and the recommendations of the Accreditation Committee of the Higher Education Commission, Pakistan. Currently, the Institute is offering one undergraduate and five post graduate degree programs i.e. B.Sc. (Hons) Agricultural and Resource Economics, M.Sc. Economics, M. Phil Economics, M.Sc. (Hons) Agricultural Economic, M.Sc. (Hons.) Development Economics, M.Sc. (Hons.) Environmental and Resource Economics. Furthermore, the Institute is also offering PhDs in Economics, Agricultural Economics, Development Economics and Environmental and Resource Economics. Prior to the creation of the Institute, its component departments were actively engaged in undertaking research projects funded by national and international organizations including, HEC, GoP, ADB, the World Bank, ILRI, JICA, IFPRI, USAID, etc. During the last decade, more than 22 PhDs and 2000 M.Sc. (Hons) were produced who are serving in various national and international institutes of repute including UAF, APCom, PARC, IWMI, GoP departments / ministries, NGOs, ACIAR, etc.

Institute of Home Sciences

The Department of Home Economics was established in 1980-81 with the introduction of Diploma in Rural Home Economics. Whereas the two years program leading to the degree of B.Sc. Home Economics was initiated in 1990. The duration of the B.Sc.(Hons.) Home Economics degree is also extended up to four years to keep parity with the other degree programs of the University of Agriculture, Faisalabad in 2005. B.Sc. (Hons.) Home Economics four years is also in accordance with the directive of the Vice Chancellor and Higher Education Commission (HEC). The Master degree holders are serving in hospitals as dietitians and as faculty members in different universities, colleges and schools. A number of students are working in outreach programs and social welfare activities to empower particularly women and children. Department of Rural Home Economics upgraded to Institute of Rural Home Economics in 2012 and in 2014 the nomenclature was transformed into Institute of Home Sciences.

Punjab Bioenergy Institute

Punjab Bioenergy Institute (PBI) at UAF was established under inspirations of Punjab Government for achieving self-reliance and sustainability in alternative energy resources and other growth and economics related prospects. The project "Establishment of Punjab Bioenergy Institute at UAF" was approved by the PDWP in its meeting held on October 16, 2014 by the Govt. of the Punjab, Lahore vide no. SOA (P) 3-10/2014 dated 06-11-2014 after establishing MOU between Pakistan and China on 31-08-2013 as a result of series of visits by competent authorities from both sides in 2012 and 2013. As far as the Institute's performance indicators are concerned, civil work has been completed about 80%, a bachelor

degree program has been established named as Energy System Engineering (ESE), procurement is in progress for last batch of equipment, research activities have been started and last batch of hiring the scientists is in progress. A 100 kW biomass power plant for demonstration purposes has been established at PARS Campus in collaboration with Guangzhou Institute of Energy Conversion Technologies, Chinese Academy of Sciences, China. The unit is for demonstration/research purposes but the electricity produced during operation will be used to run the turbines for irrigation purposes.

Research collaborations have been developed with technologically advanced countries for technology transfer and development, GIEC China is one of those collaborative Institutes in biomass gasification. Most of the deliverables have been completed or near to completion and rest of them are in pipe-line towards completion before deadline. Recently, a component "Integrated energy and agriculture concept" has been added after thoughtful revision in the same project on recommendation of honourable Chief Minister on 29th May 2015. The purpose of this revision and extension is to establish a hybrid renewable energy system including solar and biogas power generation for drip irrigation and energy efficiency at training block of PBI. Dr. Gerwin Dreesmenn from Germany, expert of "Integrated Energy and Agriculture" gave briefing to the honorable Chief Minister and he agreed to implement said technology in Pakistan through a pilot to uplift of the rural areas of Punjab through provincial government at two locations including central Punjab and southern Punjab region. This revision was approved by Punjab Government Lahore vide No. Dated 23-09-2016 with extension of additional one year.

At the moment PBI is functional and initiating collaborative efforts with industries and academic/research organizations to promote alternative energy technologies in Pakistan. PBI is focused to provide energy solutions at domestic and industrial level. The available technologies and possible energy solutions for community are available in "Downloads" as initial guidelines. In addition to it, expert opinion and consultancy services for waste to energy are also available to facilitate energy scarce sector in Pakistan.

director

Name:

Ehsan Ali

Position:

Professor

Expertise:

My expertise includes production of biofuel using crop residue, industrial effluents/wastes and biomass. Biofuel includes biodiesel, bioethanol, biobutanol, hydrogen gas, biogas, syngas through biomass gasification. Being Ph.D in Applied Biosciences and Biotechnology from Mie University Japan, I have experience of working and supervising in the fields of enzyme/proteins purification, over expression of proteins/gene cloning through molecular biology, and biochemical techniques to produce biofuel from different feedstock. Algae cultivation for biofuel, biomolecules, and hydrogen production is also in the scope. I was working as researcher/consultant with international organizations including Mizusawa Chemicals Japan to produce biodiesel from oily wastes, , AlgaeTech Malaysia to cultivate algae in Photobioreactor for biodiesel and biomolecules, UNIDO for capacity building at industrial level in biomass gasification, World Bank to design Biomass Atlas of Pakistan which is available on line to estimate availability of biomass in different parts of Pakistan and investment purposes (<http://aedb.org/index.php/component/jdownload/15-bioenergy-reports/87-biomass-atlas-of-pakistan?Itemid=101>). I have research/teaching experience of working with University of The Punjab Pakistan, Shizuoka University Japan, Mie University Japan, University Kebangsaan Malaysia, National University of Sciences and Technology Islamabad Pakistan.

Performance evaluation of solar water pumps discharge efficiency on variable heads

Determine the possibility of moving the energy for women and children health's initiative

Research and synthesis of available data and emerging technologies in energy sector

Impact assessment of street light on Gender based violence

Determine the most optimum configuration, in terms of efficiency, economic viability and reliability.

Evaluate the performance of different types of solar energy arrays (fixed & moving) over extended periods of time under different agro-climatic conditions as the rated specifications given by manufacturers generally reflect peak performances under ideal conditions and do not accurately indicate long term performance under less than ideal or poor conditions.

Collection and statistical analysis of daily metrological, groundwater and performance data.

Determination of solar water pumps discharge efficiency at variable heads under different weather conditions

Cost analysis of different energy source diesel, electricity and solar energy.

Evaluation and registration of viable manufacturers in energy sector

Planning and design of high efficiency irrigation systems

Environment Impact Assessment EIA and Environment and Social Management Plan ESMP

SUB CAMPUSES

Sub-Campus Toba Tek Singh

The UAF Sub Campus Toba Tek Singh was established on 5th of June 2005, with the vision put forth by the Governor/Chancellor that Universities should develop programs for the benefit of local masses. District Toba Tek Singh is the second largest hub of poultry after Karachi and it was felt that appropriate knowledge and skills about poultry education must be disseminated to the farmers in addition to producing qualified professionals in poultry Science. As far as the infrastructure is concerned, the civil work has been completed for the construction of double story academic block, boys and girls hostels, foreign faculty hostel, motor pool, cafeteria, library and infirmary. Whereas civil work on feed manufacturing unit, an environment controlled house, Hatchery and a Bird Clinic is underway and the installation of the equipments in these structures will be completed soon. Strengthening of laboratories, computing facilities and library has been furnished. In addition, Video Conferencing facility and PERN internet connectivity have been made available for faculty and students. On completion of the project, UAF Sub Campus Toba Tek Singh will emerge as one of the apex academic and research institute in the fields of Poultry Science, Computer Science, Zoology, Chemistry and allied sciences. Junior Laboratory school completed its first successful year to facilitate the natives. The strength of school reached to about 300 students. The Sub Campus has a diligent faculty with diverse academic background in the relevant fields. At present, adequate number of short courses for the farmers, two years Poultry Assistant Diploma (PAD) and Livestock Assistant Diploma (LAD) after matriculation with Science are being offered. The principal is the Incharge of the office. He is controlling the whole academic processes of the institute and is also controlling all the official work. The institute is offering the following under and postgraduate programs.

Career Options

Hatcheries, Feed Mills, Breeder Farms, Poultry Farms and Research Laboratories

Diagnostic Laboratories, Teaching Institutes

Government Hospitals, Fashion Designing,

Textile Industry,

Child and Family counseling,

City Art Council,

Vocational Training Institutes.
Accounting, Public Administration,
Financial Planning, Banks
Software Development, System and
Network administrator, Teaching and
Research

Sub-Campus Depalpur

Given the importance of agriculture in the Pakistan's economy and the overwhelming population's dependence on it, agricultural education is very important for revolutionizing agriculture through production of new knowledge, innovative techniques and modern farming skills. The University of Agriculture, Faisalabad has always been striving very hard to achieve the objective of revolutionized agriculture by providing skilled and professional manpower for this sector. The newly established UAF sub-campus Depalpur, Okara is a recent example of the University's mission. Okara district is well known for agricultural production particularly for maize and potato crops and being. Being a progressive district, Okara needs precision agriculture to take the farming to next level. The sub-campus has a has a spacious building with a spectacular view of citrus gardens along the bank of Lower Bari Doab Canal (LBDC) and is situated at Okara-Lahore GT Road about 6 km towards Renala Khurd. The campus has 77 acres of land at this site and a research farm of about 153 acres at Rakh Bhulewal, Haveli Lakha, Tehsil Depalpur, Okara.

CAS-AFS

The fast changing demography, climate and international trade policies are impacting the economies of the countries. In this scenario, agriculture seems to be more important than what might have appeared as a source of food security only. In Pakistan's economic systems, it is only the agriculture, which provides food for entire population and have the potential to provide employment to the growing number of unemployed youth. University of Agriculture-Faisalabad aspires to ensure food security through outstanding achievements in learning, discovery, innovation and community service with a clear focus on programs of significance to agricultural and rural development. USAID's initiative to establish a U.S.-Pakistan Center for Advanced Studies in Agriculture and Food Security (USPCAS - AFS) at UAF will greatly support Pakistan's economic development by strengthening UAF in crucially important areas. It aims to establish the governance structures, improve curriculum and teaching practices, and upgrade the graduate programs and research to meet client (industry, civil society, and government) needs. This initiative will particularly benefit the talented but economically and

culturally disadvantaged students to access higher education in agriculture and food security. The USPCAS-AFS will serve as a focal point for collaborative research and training among all nodes of agricultural sciences related to food security. It will build a cohesive scientific community and provide a suitable platform to enable cutting edge agricultural research to address current problems being faced by the society at large.

History

In 2011, USAID commissioned a feasibility study to identify institutions to host three centers for focused research in food security, water and energy. The study identified UAF, MUET, NUST and PUET to establish Center for Advanced Studies in Food Security at UAF, in Water at MUET, and in energy at NUST + PUET.

In April 2012, HEC signed an MoU with USAID to establish 4 Centers for Advanced Studies as described above

Upon direction from the then Executive Director HEC UAF Syndicate approved the establishment of Center for Advanced Studies for Agriculture and Food Security (CAS-AFS) at UAF.

On December 2014, USAID signed a 5 years Cooperative Agreement for CAS-AFS as a tri-partite partnership between USAID, HEC and UAF.

The Syndicate held on 29.12.14 approved the Cooperative Agreement along with all its provisions and conditions (Key personnel, salaries, durations).

Center started functioning by hiring faculty and staff through a competitive selection process as per the approved HR Manual. The staff was trained through USAID commissioned professional programs at LUMS

On October 21, 2017, USAID walked out of partnership by terminating funds effective 21.10.2017 due to reprioritization of USAID internal budgeting.

HEC immediately issued statement to sustain CAS and started salaries negotiation. HEC formally directed university to sustain CAS-AFS. and released 10m Rupees for salaries.

On the sidelines, Punjab Government also played a key role in CAS sustainability through a supplementary grant of 141m rupees to continue research projects of CAS

D-8 Organization approved CAS-AFS a D-8 designated Research Center in January 2019.

To revive CAS-AFS further, Governor Punjab/Chancellor inked a fresh Agreement of Cooperation between the University of California at Davis and UAF on 01.06.2021

UAF Community College

Agriculture and Education are the two key areas, which will define the future of our country. In view of that, University of Agriculture, Faisalabad has established its Community College in 2008 with the main objective to disseminate quality education emphasizing on integrated approach to produce skilled manpower in agriculture, basic sciences and allied disciplines. This skilled manpower will serve in public and private sector organizations to uplift the standard of the livelihood of the community.

The UAF Community College has revived Intermediate (Pre-Agriculture) certificate to provide competent nursery for admission at undergraduate level in various disciplines of agriculture and allied subjects. This program will presage into a bright future of young generation through amalgamation of basic sciences with agriculture for new thinking, novel approaches and innovative technical skills to accelerate the growth of agriculture sectors in the country. So, the main incentive behind the commencement of this step is to provide education and learning facilities to the rural masses of 36 districts of Punjab, as they could contribute towards Agriculture and Rural Economic Developments. It would prepare the young students, imbued with the ardor and spirit, to service their country constructively. As the admission is based purely on merit basis on reserved seats for each district of Punjab, the college represents the whole community of Punjab Province. The domicile of candidate for admission is determined from the address of school of matriculation so that a candidate enjoying facilities of URBAN schools may not take seats of rural candidates

UAF Community college establishment is dual in nature on one hand, to train students to become constructive & responsible citizens of the country by developing their all rounded personality, inculcating in them important moral values of life: high level of confidence, character and on the other hand, it opens venues for graduates and post graduate Agriculture students' research as an experimental laboratory.

The UAF Community College has introduced various associated degrees, master degrees through weekend programs, community development programs and diplomas in a number of disciplines. It will create an opportunity of skill development for the rural population of our community. Such trained manpower will be an asset for agriculture and rural economic development.

Comprehensive curriculum serves as a broad based support for student's professional and academic training. In addition the newly constructed spacious building and well equipped laboratories caters the needs of students with substantial resources both in academic and professional capacities. It has an aim to develop an interaction with other renowned academic peers around Pakistan.

UAF Community College has highly qualified and well experienced staff. Most of the faculty members are Ph.D. and Post Doc from abroad and have experience of teaching and research at International Universities. They are well seasoned in their respective fields and circumspect in training of manpower. They provide students the tools they need to grow into competent, skilled and self-assured professionals.

Directorate of Distance Education

1. Historical Perspective

Since its inception, the University of Agriculture Faisalabad has remained involved in distance education of life long learners (farmers) through most of the following modes.

Printed materials

Audio cassettes

Motion pictures

Radio

Television

Computer

Modern media (Social media)

The University has launched its own FM Radio station at its main campus. It is working at FM 100.4 frequency. Now, under the dynamic leadership of Prof. Dr. Iqrar Ahmad Khan (S.I.), Vice Chancellor, the Information Technology (IT) based distance education program has been started.

2. Rationale

A rapid increase in population, growing cost of on-campus courses, social and institutional problems of people desiring for higher education, need of education in the current global scenario, and availability of innovative learning management systems have created a need to start degree programs, and massive open online courses (MOOCs) through distance education.

3. Vision

Achieving international recognition as distance education provider by ensuring learners' satisfaction, involving and training dedicated faculty, maintaining quality of education, applying variety of teaching-learning strategies and using appropriate distance delivery modes.

4. Mission

Responding promptly to the educational needs of distance learners and providing them world class educational facilities. We will also continue providing lifelong learning opportunities for present and prospective farmers/other rural dwellers to build a strong knowledge based agricultural economy in Pakistan.

5. Objectives

The objectives of the Directorate of Distance Education, University of Agriculture, Faisalabad include to:

Play leadership role in distance education.

Contribute significantly to the educational development of Pakistani people.

Train and encourage faculty to adopt innovative modes of distance education.

Make the University research more meaningful by focusing on the feedback of distance education activities.

Ensure quality instruction through distance education.

Centre of Agricultural Biochemistry and Biotechnology (CABB)

Centre of Agricultural Biochemistry and Biotechnology (CABB) has been central to innovation and teaching in Biotechnology. Centre has a track record of providing facilitated access to cutting-edge scientific technologies for University of Agriculture faculty, staff, and graduate students, as well as collaborators nationwide. Hence, CABB enables researchers from allied Departments by allowing them to focus on their research without the burden of developing and maintaining the infrastructure and expertise to support ever-changing technologies.

CABB is equipped not only to carry out cutting-edge research to compete at national and international levels also offer five degrees at levels of BSc (Hons) Agriculture major in Biotechnology, MSc (Hons) Agri Biotechnology, MPhil Biotechnology, PhD Biotechnology and PhD Molecular Genetic, an interdisciplinary degree to accommodate students from plant and animal sciences including basic sciences.

The strategic targets of our research work are synthetic biology and chloroplast molecular biotechnology, transgenic development, virology, germplasm characterization using OMICS approaches, somatic hybrid development, plant-insect interaction and diagnostic facilities for GMO detection and dengue characterization. The potential impact of these projects could be in terms of the strategic targets.

CABB also participates in a number of outreach activities, the largest of which is the annual/biannual University Festivals and national and international seminars/workshops. Further, Centre allows school/college/university students across the country to visit and which help them gather information about the courses and facilities available at CABB.

Directorate of Distance Education

Historical Perspective

Since its inception, the University of Agriculture Faisalabad has remained involved in distance education of life long learners (farmers) through most of the following modes.

Printed materials

Audio cassettes

Motion pictures

Radio

Television

Computer

Modern media (Social media)

The University has launched its own FM Radio station at its main campus. It is working at FM 100.4 frequency. Now, under the dynamic leadership of Prof. Dr. Iqrar Ahmad Khan (S.I.), Vice Chancellor, the Information Technology (IT) based distance education program has been started.

2. Rationale

A rapid increase in population, growing cost of on-campus courses, social and institutional problems of people desiring for higher education, need of education in the current global scenario, and availability of innovative learning management systems have created a need to start degree programs, and massive open online courses (MOOCs) through distance education.

3. Vision

Achieving international recognition as distance education provider by ensuring learners' satisfaction, involving and training dedicated faculty, maintaining quality of education, applying variety of teaching-learning strategies and using appropriate distance delivery modes.

4. Mission

Responding promptly to the educational needs of distance learners and providing them world class educational facilities. We will also continue providing lifelong learning opportunities

for present and prospective farmers/other rural dwellers to build a strong knowledge based agricultural economy in Pakistan.

5. Objectives

The objectives of the Directorate of Distance Education, University of Agriculture, Faisalabad include to:

Play leadership role in distance education.

Contribute significantly to the educational development of Pakistani people.

Train and encourage faculty to adopt innovative modes of distance education.

Make the University research more meaningful by focusing on the feedback of distance education activities.

Ensure quality instruction through distance education.

ADMISSIONS

Undergraduate Admissions

Apply Online

<http://admissions.uaf.edu.pk/>

Schedule For Admission To UG

S # Event Dates

1. Opening of web portal for registration of first entry

test and submission of admission applications

03.06.2024 (MON)

2. Last date for registration of entry tests and

submission of online admission application forms/

closing date of web portal

27.06.2024 (THU)

(25 DAYS)

3. Handing over of data to the office of Controller of
Examinations for printing of question papers

02.07.2024 (TUE)

4. Date of Entry Test

1

st time 10.00 a.m. to 11.30 a.m.

2

nd time 01.00 p.m. to 02.30 p.m.

3

rd time 03.30 p.m. to 05.00 p.m.

14.07.2024 (SUN)

5. Announcement of result by office of Controller of
Examinations

22.07.2024 (MON)

2nd Entry Test

S # Event Dates

1. Opening of portal for registration of 2nd entry test
for newcomers

15.07.2024 (MON)

2. Last date for registration 29.07.2024 (MON)

(17 DAYS)

3. Handing over of data to the Controller of
Examinations for printing of question papers

30.07.2024 (TUE)

4. Date of Entry Test

1

st time 10.00 a.m. to 11.30 a.m.

2

nd time 01.00 p.m. to 02.30 p.m.

3

rd time 03.30 p.m. to 05.00 p.m.

04.08.2024 (SUN)

5. Announcement of result by office of Controller of
Examinations

12.08.2024 (MON)

Schedule after announce of result of Entry Tests:

S# Event Dates

1. Test/Interview of Hafiz-e-Quran candidates 15.08.2024 (THU)

2. Interview/Test of Co-Curricular activities 15.08.2024 (THU)

rd Evening program list + reporting of nominees

25.09.2024(WED) +quotas 25 to 27.09.2024

10. Orientation of new entrants: 02.10.2024(WED)

FACULTY OF AGRICULTURE (Criteria)

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical/Pre-Engineering) or Three years Diploma of Agricultural Sciences

(DAS) / Diploma of Associate Engineering (DAE) securing 45% marks i.e. 495/1100 or Intermediate

(Pre-Agriculture) with CGPA 2.20

Ent

Intermediate Science (Pre-Medical/Pre-Engineering) securing 60% marks i.e. 660/1100 or Intermediate

(Pre-Agriculture) with CGPA 2.50

FACULTY OF VETERINARY SCIENCE (Criteria)

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical) securing 60% marks i.e. 660/1100

With

Securing Minimum 50% marks is compulsory in Entry test.

Intermediate Science (Pre-Medical) or equivalent securing 50% marks i.e. 550/1100

FACULTY OF SCIENCES (Criteria)

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have not

studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06 credits) in

first two semesters

FACULTY OF ANIMAL HUSBANDRY(Criteria)

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical) securing 50% marks i.e. 550/1100 or Intermediate (Pre-Agriculture)

with CGPA 2.20

FACULTY OF AGRI. ENGINEERING & TECHNOLOGY (Criteria)

Minimum Eligibility Criteria

Intermediate Science (Pre-Engineering) / Intermediate with combination of Physics, Mathematics &

Computer Studies / ICS / Three years Diploma of Associate Engineer (DAE) in Civil, Mechanical, Auto

& Farm Machinery, Auto & Diesel, Mechanical/Machinery securing 60% marks i.e. 660/1100

With

Securing Minimum 33% marks is compulsory in Entry test

FACULTY OF SOCIAL SCIENCES (Criteria)

Minimum Eligibility Criteria

B.Sc.(Hons.) Agri. & Resource Economics

Intermediate Science (Pre-Medical/Pre-Engineering) securing 50% marks i.e. 550/1100 or Intermediate

(Pre-Agriculture) with CGPA 2.20

B.Ed. (Hons.)

At least 2nd division or 45% marks in Intermediate (F.A./F.Sc.) / Intermediate (Pre-Agriculture) with

CGPA 2.20 or equivalent (proof of equivalence from the IBCC)

BS Economics

Intermediate or equivalent (Pre-Medical / Pre-Engineering / General Science Group (with at least one

subject as Economics / Statistics / Mathematics) I.Com / D.Com / ICS / A levels with minimum of 45%

marks i.e. 495/1100

BS Sociology

At least 45% marks in FA/FSc./I.Com/ICS/A Level

Bachelor of Business Administration (BBA)

Intermediate (12 years schooling) securing 50% marks or Intermediate (Pre-Agriculture) with CGPA

2.20

BBA(Agribusiness)

Minimum Eligibility Criteria

Intermediate or an equivalent examination (12 years schooling) securing at least 50% marks i.e.

550/1100 or Intermediate (Pre-Agriculture) securing CGPA 2.20/4.00

BS Commerce

Minimum Eligibility Criteria

Intermediate (12 years of schooling) in any discipline having not less than 45% marks i.e. 495/1100 or

Intermediate (Pre-Agriculture) having CGPA 2.20/4.00

FACULTY OF FOOD, NUTRITION & HOME SCIENCES

B.Sc. (Hons.) Food Science & Technology

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical/Pre-Engineering) / Three years Diploma of Associate Engineer (DAE)

in Food Technology / Food Processing & Preservation securing 60% marks i.e. 660/1100 or Intermediate

(Pre-Agriculture) with CGPA 2.50

B.Sc. (Hons.) Human Nutrition & Dietetics

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical) securing 60% marks i.e. 660/1100 or Intermediate (Pre-Agriculture)

with CGPA 2.50

B.Sc. (Hons.) Home Economics

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical / Pre-Engineering) securing 45% marks i.e. 495/1100 or

Intermediate (Pre-Agriculture) with CGPA 2.20

Bachelor of Fine Arts (BFA)

Minimum Eligibility Criteria

Intermediate Certificate, F.A, I.Com, ICS, F.Sc.(Pre-Medical or Pre-Engineering), A levels or equivalent degree having 45% marks

UAF COMMUNITY COLLEGE, PARS

BS Botany

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Biochemistry

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Chemistry

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Computer Science

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have

not studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06

credits) in first two semesters.

BS English

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Mathematics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Physics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Sociology

Minimum Eligibility Criteria

At least 45% marks in FA/FSc./I.Com/ICS/A Level

BS Software Engineering

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have not

studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06 credits) in

first two semesters.

BS Statistics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Zoology

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

B.Ed.

Minimum Eligibility Criteria

MA/M.Sc./B.Sc.(Hons.)/BS(16 years schooling) from HEC recognized University/Institution and any

degree program of this University(16 years schooling) securing at least 45% marks under annual system

or CGPA of 2.50/4.00 under semester system.

a) The students enrolled in any degree program(16 years schooling) at this University are also eligible

to apply in this program through credit earning system. The morning students pursuing their higher

degrees in the vicinity of Faisalabad who fulfill the minimum requirements for admission to this degree

will also be eligible to apply and continue (if admitted on merit) the evening/weekend program of studies

i.e. B.Ed.

b) Merit for admission in this degree program shall be determined on the basis of percentage of

marks.

UAF SUB-CAMPUS, TOBA TEK SINGH

B.Sc. (Hons.) Poultry Science

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical/ Pre-Engineering) securing 50% marks i.e. 550/1100 or Intermediate

(Pre-Agriculture) with CGPA 2.20

BS Animal Sciences

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical) securing 50% marks i.e. 550/1100 or Intermediate (Pre-Agriculture)

with CGPA 2.20

BS Computer Science

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have not

studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06 credits) in

first two semesters.

BS Chemistry

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Zoology

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

Bachelor of Business Administration (BBA)

Minimum Eligibility Criteria

Intermediate (12 years schooling) securing 50% marks or Intermediate (Pre-Agriculture) with CGPA

2.20

BS English (Language and Literature)

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

B.Sc. (Hons.) Human Nutrition & Dietetics

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical) securing 60% marks i.e. 660/1100 or Intermediate (Pre-Agriculture)

with CGPA 2.50

BS Information Technology

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have not

studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06 credits) in

first two semesters.

BS Biochemistry

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Botany

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Physics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Mathematics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

B.ED

Minimum Eligibility Criteria

MA/M.Sc./B.Sc.(Hons.)/BS(16 years schooling) from HEC recognized University/Institution and any

degree program of this University(16 years schooling) securing at least 45% marks under annual system

or CGPA of 2.50/4.00 under semester system.

a) The students enrolled in any degree program(16 years schooling) at this University are also eligible

to apply in this program through credit earning system. The morning students pursuing their higher

marks.

UAF SUB-CAMPUS, BUREWALA – VEHARI

B.Sc. (Hons.) Agriculture

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical/Pre-Engineering) / Three years Diploma of Agricultural Sciences

(DAS) securing 45% marks i.e. 495/1100 or Intermediate (Pre-Agriculture) with CGPA 2.20

BS Computer Science

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have not

studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06 credits) in

first two semesters.

BBA(Agribusiness)

Minimum Eligibility Criteria

Intermediate or an equivalent examination (12 years schooling) securing at least 45% marks i.e.

495/1100 or Intermediate (Pre-Agriculture) securing CGPA 2.20/4.00

B.Sc. (Hons.) Food Science & Technology

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical/Pre-Engineering) / Three years Diploma of Associate Engineer (DAE)

in Food Technology / Food Processing & Preservation securing 60% marks i.e. 660/1100 or Intermediate

(Pre-Agriculture) with CGPA 2.50

Bachelor of Business Administration(BBA)

Minimum Eligibility Criteria

Intermediate (12 years schooling) securing 45% marks or Intermediate (Pre-Agriculture) with CGPA

2.20

BS Chemistry

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Botany

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Zoology

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Mathematics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Information Technology

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have not

studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06 credits) in

first two semesters.

BS English

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Sociology

Minimum Eligibility Criteria

At least 45% marks in F.A./F.Sc./I.Com./ICS/A Levels

B.Sc. (Hons.) Human Nutrition & Dietetics

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical) securing 60% marks i.e. 660/1100 or Intermediate (Pre-Agriculture)

with CGPA 2.50

B.ED

Minimum Eligibility Criteria

MA/M.Sc./B.Sc.(Hons.)/BS(16 years schooling) from HEC recognized University/Institution and any

degree program of this University(16 years schooling) securing at least 45% marks under annual system

or CGPA of 2.50/4.00 under semester system.

a) The students enrolled in any degree program(16 years schooling) at this University are also eligible

to apply in this program through credit earning system. The morning students pursuing their higher

degrees in the vicinity of Faisalabad who fulfill the minimum requirements for admission to this degree

will also be eligible to apply and continue (if admitted on merit) the evening/weekend program of studies

i.e. B.Ed.

b) Merit for admission in this degree program shall be determined on the basis of percentage of

marks.

UAF SUB-CAMPUS, DEPALPUR

B.Sc. (Hons.) Agriculture

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical/Pre-Engineering) / Three years Diploma of Agricultural Sciences

(DAS) securing 45% marks i.e. 495/1100 or Intermediate (Pre-Agriculture) with CGPA 2.20

BS Zoology

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Chemistry

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Physics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Computer Science

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The students who have not

studied Mathematics at Intermediate level have to pass deficiency courses of Mathematics (06 credits) in

first two semesters.

BS Mathematics

Minimum Eligibility Criteria

F.Sc. or equivalent examination securing 45% marks

BS Sociology

Minimum Eligibility Criteria

At least 45% marks in F.A./F.Sc./I.Com./ICS/A Levels

BS Information Technology

Minimum Eligibility Criteria

Minimum 50% marks in Intermediate / 12 years schooling / A-Level (HSSC). The

students who have not studied Mathematics at Intermediate level have to pass

deficiency courses of Mathematics (06 credits) in first two semesters.

B.Sc. (Hons.) Food Science & Technology

Minimum Eligibility Criteria

Intermediate Science (Pre-Medical/Pre-Engineering) / Three years Diploma of Associate Engineer (DAE)

in Food Technology / Food Processing & Preservation securing 60% marks i.e. 660/1100 or Intermediate

(Pre-Agriculture) with CGPA 2.50

B.ED

Minimum Eligibility Criteria

MA/M.Sc./B.Sc.(Hons.)/BS(16 years schooling) from HEC recognized University/Institution and any

degree program of this University(16 years schooling) securing at least 45% marks under annual system

or CGPA of 2.50/4.00 under semester system.

a) The students enrolled in any degree program(16 years schooling) at this University are also eligible

to apply in this program through credit earning system. The morning students pursuing their higher

degrees in the vicinity of Faisalabad who fulfill the minimum requirements for admission to this degree

will also be eligible to apply and continue (if admitted on merit) the evening/weekend program of studies

i.e. B.Ed.

b) Merit for admission in this degree program shall be determined on the basis of percentage of marks

Postgraduate Admissions

Apply Online

<http://postgraduate.uaf.edu.pk/Default.aspx>

Online Applying Procedure for Postgraduate

GAT/GRE (Subject) type test

For admission to (MS/MPhil/MSc(Hons) and PhD 2024-25

Visit UAF website <http://uaf.edu.pk/> and read Eligibility Criteria/ other instructions carefully

before applying at following link: <http://postgraduate.uaf.edu.pk/>

1. First, click on Register with UAF and fill the Required Fields.

Have a valid E-Mail ID.

Valid Passport in case of International Candidate

Valid CNIC/B-Form number of the candidate.

Select the Password and remember for subsequent use.

2. After Registration, with UAF you will not receive Confirmation Mail from UAF on your Registered Email ID.

3. Login by using already given Email ID and Password and click on the LOGIN button.
4. After Login, Complete your Profile with Correct Information and print out fee voucher.
5. After Paying Fee Voucher in given bank, Login again and Click on Apply Button.
(don't use Enter button)
6. Upload the following Documents (Candidate Picture, Terminal Degree and CNIC/BForm).
7. Size of the Documents or Pictures must be less than 700kb and JPEG format.
8. After Uploading, choose your terminal degree for test and Subject (Discipline name) and Print your Roll No. Slip.
9. On Test Day bring your Roll No. Slip, Original CNIC/B-Form and transparent a clipboard.

Note:

Choose correct Terminal Degree on admission application forms.

In case wrong information is added, the correction can be made by connecting on 041-9200189/9201081 or sending Email at postgraduate@uaf.edu.pk for entry test.

For Correction write your query clearly and attach the relevant document. Without document the correction will not be entertained.

Important

i. The entry test (GAT/GRE) will be centralized and conducted by the Controller of Examination

and following proportion were proposed for GAT/GRE as recommended by the GSRB in its meeting held on 30-11-2020

ii. The paper will consist of 100 MCQs with composition i.e. Subject=65%, Verbal Reasoning=10%,

Quantitative reasoning=10%, Analytical Reasoning= 15%.

iii. The duration of test will be 90 minutes

iv. The aggregate weightage of entry test (GAT/GRE) and CGPA/marks obtained by the candidate will be 65% and 35%, respectively for admission (only for MS/MBA/MPhil/MSc (Hons), as recommended by the GSRB in its meeting held on 30-11-2020

v. The fee for the entry (GAT/GRE) for MS/MBA/MPhil/MSc (Hons) will be Rs.1500/- and PhD Rs.2500/- respectively and the candidate will apply through online admission portal.

International Students

The Office of Foreign Students' Advisor

The Foreign Students' Advisor Office (FSA) at the University of Agriculture, Faisalabad (UAF), Pakistan, is dedicated to helping foreign students with the admission process and beyond. The office promotes internationalization at UAF by increasing the number of foreign student admissions to degree programs in agriculture and related sciences. UAF strives to provide a comprehensive education that encompasses knowledge, skills, and values while also forging friendships between students' home country and Pakistan. FSA assists interested international students with documents needed for a Pakistani visa when they start their academic journey; FSA offers academic guidance and mentorship and facilitates social events to help with cultural integration. Furthermore, we arrange activities at the university for international students providing opportunities to learn about Pakistani culture. With our support, foreign students can smoothly transition into their new lives as students in Pakistan. FSA is committed to facilitating student mobility and administering international funding awards. We aim to foster an inclusive environment for foreign students at UAF.

Currently, we are hosting 102 foreign students from 9 different nationalities studying at UAF, including Afghanistan, Benin, Gambia, Sri Lanka, Sierra Leone, Somalia, Syria, Togo, UK. The students study in different degree programs at UAF under international scholarships/fellowships.

Application Guidelines

The University of Agriculture Faisalabad (UAF), Pakistan, is a global leader in agriculture education. The fertile land of Pakistan is famous for its agriculture and agricultural products. UAF has played an important role in ensuring food security, employment generation, and economic growth through capacity building, research and development, outreach, and social mobilization. The University of Agriculture, Faisalabad (UAF) is over a century old. The flagship university of the Province of Punjab ranks second among all public and private higher education institutions in Pakistan according to the 2012 HEC ranking and 98th and 139th in the world (20th and 25th in Asia) in agricultural sciences based on the current NTU and QS rankings, respectively. UAF translates the latest research into practical applications (goods and services) that ensure food security, improve people's lives, and drive the economy of Pakistan. UAF creates and disseminates knowledge and skills to thrive in the fast-changing, multicultural environment of the 21st century. Thus, UAF emerges as a leader in the change process toward a prosperous and resilient nation of Pakistan.

The UAF has seven faculties, 11 institutes, and ten directorates and has so many departments. Thanks to its 640 academic staff and 3000 administrative staff, including officials, it strives to serve students who are the future of Pakistan. This higher education institute comprises a group of departments that provide high-level education and training, carry out scientific research, and produce publications. International students from abroad apply to universities at UAF every year. Quality of education, low tuition fees, and affordable living costs are key factors in the increasing number of applications. The Self-Finance Scheme/Scholarship aims to assist foreign students with educational aspirations in Pakistan. A limited number of seats are reserved for B.Sc. (Hons) in Agriculture and related disciplines. Engr. DVM and other departments. Students with a D in their previous degree and who wish to apply to M.Sc., M.Phil., and Ph.D. programs can obtain certain information from the UAF website about their field of study.

THE FOLLOWING DOCUMENTS ARE REQUIRED TO APPLY TO UAF IN DIFFERENT PROGRAMS AND SHOULD BE SENT TO THE GIVEN EMAIL ADDRESS.

1. 12-year high school diploma/certificate for undergraduate admission program

Applicants who have passed higher secondary school with a science subject combination (chemistry, physics, biology, math, and computer) of or equivalent with a minimum of 45% can apply for admission with an age limit of 23 for all undergraduate programs beginning on September 1.

2. Four years of a graduate degree or above for an M.Phil./M.Sc. (Hons)

Applicants must hold a bachelor's degree in the primary subject of the degree program they want to apply to. If a candidate chooses a different field of study, they are offered admission with deficiencies of 1 or 2 by the BOS of the department.

3. Eighteen years of education for admission to the Ph.D. Program

The applicant must have passed an 18-year master's degree (M. Phil/MS) in the major subject to which they want to apply. Suppose a candidate chooses a different field of study. In that case, the BOS of the respective department will consider him/her for admission with deficiency courses of 1-2 semesters and two publications in related fields of research.

4. Valid passport of the respective country

5. NOC from the Embassy of the respective country
6. English language proficiency certificate

HOW TO APPLY

Foreign nationals may submit their applications online at the following website www.uaf.edu.pk Students can send their documents to the following email address. The above-mentioned documents might be forwarded to the following email addresses.

I. FSA@uaf.edu.pk

II. Registrar@uaf.edu.pk

III. DGS@uaf.edu.pk

TERMS & CONDITIONS

1. Documents will be required after provisional admission/selection:

a. Certificates / Marks Sheet of HSSC / equivalent examination attested/verified by IBCC.

b. Equivalence Certificate from Inter-Board Committee of Chairmen (IBCC) Islamabad, where applicable

c. Verification of Foreign Passport by the concerned Embassy in Pakistan must be submitted in a sealed envelope.

d. Recent Photographs (pasted on each form).

e. Nomination letter or original NOC of the Embassy concerned to study in Pakistan

2. Selection of students against the seats allocated to foreign students will be finalized by the university's competent authority

ADMISSION UNDER SELF-FINANCE FOR INTERNATIONAL STUDENTS

The Higher Education Commission Islamabad also aims to facilitate foreign students with all administrative aspects of their application and study in Pakistan, including applying to universities, obtaining a non-objective certificate (NOC), and securing a visa. Note the following instructions for applying to professional programs as foreign nationals.

Foreign nationals applying under the Self-Finance Scheme can apply directly through these emails. DGS@uaf.edu.pk, Registrar@uaf.edu.pk, FSA@uaf.edu.pk

- The FSA office will send the documents to the relevant offices for further processes like admission to undergraduate and postgraduate degree programs. The relevant offices dealing with the admission process are the Deputy Registrar (SR), with Undergraduate Studies, and the Director of Graduate Studies, responsible for the postgraduate admission process. Students through the admission process.

- After receiving an equivalence in BOS, admission to the relevant department will be offered. The relevant department will check the applicant's transcripts and offer admission with deficiencies courses if necessary.

- The Foreign Students' Advisor is responsible for informing international students about admission, facilitating enrollment formalities, helping students get admission, and facilitating the visa process through the HEC academic section. The Director of Academics at the Higher Education Commission, Islamabad, issues a NOC letter to students on the advice of the university (Information Sheet) for visa purposes. The FSA also deals with HEC scholarship awardees and foreign students from different countries at UAF.

APPLICATION INSTRUCTIONS:

1. Foreign applicants should visit the University website at www.uaf.edu.pk and contact the University of Agriculture, Faisalabad (UAF) by email or contact the Higher Education Commission. The University will send a copy of the admission offer letter to the HEC, confirming its receipt, and passing on an endorsement to the Ministry of Interior.

2. The student can apply for a study visa with a Pakistani Embassy or Consulate in their country on behalf of the offer admission letter. They must submit the following documents:

1. Application form (Student Visa Form)

2. Photocopy of Passport

3. Photograph

4. All relevant transcripts, diplomas, and other educational documents

5. University acceptance letter

3. The Pakistani Embassy or Consulate abroad will then forward the complete application to the Ministry of Foreign Affairs, Islamabad, for further processing.

4. The Ministry of Foreign Affairs will forward the application to the Ministry of Interior for security clearance. The Ministry of Interior will consult with the Ministry of Education and the Higher Education Commission in this process. It must complete the clearance process within four weeks and submit its judgment on the matter to the United Nations. a) The HEC and b) The Ministry of Foreign Affairs.

5. The HEC must then notify the university concerned of the decision by email.

6. Once issued, the visa must be renewed annually, adhering to the same security clearance process.

7. The applicant can contact the FSA Office for any problems/difficulties faced during the visa process.

VISA RENEWAL

1. The UAF bears the responsibility of international students:

I. Verifying the Visa Extension Form

II. Issuing a Bonafide Student Certificate

III. Recommending whether to extend the visa

2. The student must submit these documents to the concerned passport office (or mail to the Pakistani Embassy or Consulate if living abroad) for visa extension.

Facilities

Quality Education, Active Social life:

Students are allowed to experience an active social life with a number of their fellow foreign students in the International Students' Club at the University. They can participate in many social activities throughout the year, such as cultural art, sports and scientific events in concerts, exhibitions, recreational tours, and theater halls on campus.

Hostel Facility available on campus:

UAF has 27 hostels, with the country's largest women's hostel (1000 capacity). The Hashmi Hall is reserved for foreign students and Ph.D. students. The hostel rooms offer security and friendly staff.

Medical and health care

The health of our students always comes first. All students enrolled in undergraduate degree programs can benefit from our healthcare services. Medical facilitation center and female dispensary (medical facilities for female campus community)

Some other facilities are as follows:

- Desi Food and Mess in the Hostel

- Sports activities (football, cricket, athletics, handball, swimming, games, etc.) available

- Library/Digital Library

- ICT Block

- Student Services Center

- Exhibition Center

5.

MoU between University of Agriculture, Faisalabad- Pakistan and Bynyad Literacy Community Council, Lahore

6.

MoU between University of Agriculture, Faisalabad and Fauji Fertilizer Company (Pvt) Ltd., Rawalpindi

LABS

MOLECULAR CARE

Molecular Care has been established with the objective to extend the expertise and facilities of the university faculty in Molecular Biochemistry Lab. of the Department of Biochemistry for researchers, students and the community. The department is pioneer in the Punjab offering independent postgraduate degrees in Biochemistry since 1973. Molecular Biochemistry lab of the department has attained sufficiently high level of expertise and facilities that could be translated in service of the community. The establishment of Molecular Care is an excellent facility and one of its kind in Faisalabad, offering molecular diagnostic tests for humans and animals, and Research Solutions in the area of Molecular Biology to cater the needs of students and researchers of newly emerging universities and institutions. Bioinformatics is also becoming integral part of biological and molecular research. The Molecular Care is offering bioinformatics analysis both at introductory and advanced level. Training modules are also offered based on vast academic and research experience of several years in the field of biochemistry and molecular biology. Researchers in Molecular Care are working with professional excellence in product development.

Central Hi-Tech Laboratory

ORIC-UAF

The Central Hi-Tech Laboratory, University of Agriculture, Faisalabad, UAF's principle analytical laboratory and it is a schedules office under the aegis of the Office of Research, Innovation & Commercialization (ORIC). Central Hi-Tech Laboratory was established as part of Japan International Co-operation Agency (JICA) program in 1997 and provides research facilities to students / researchers and industries. The laboratory housed some sophisticated equipments like Scanning and Transmission Electron Microscopes, Atomic Absorption Spectrophotometer, Gas Chromatograph and High Pressure Liquid Chromatograph. Apart from the researchers from UAF, this Lab. has also facilitated researchers from other institutions. The notable institutions of Punjab and KPK provinces includes Government College University, Faisalabad; Pir Mehr Ali Shah Arid Agriculture University, Rawalpindi; Government College Women University, Faisalabad; Islamia University, Bahawalpur; Sargodha University, Sargodha; Bahauddin Zakariya University, Multan; Khwaja Fareed University of Engineering and Information Technology, Rahim Yar Khan; University of Engineering and Technology, Taxila; Women University, Multan; Lahore College Women University, Lahore; University of Gujrat; Allama Iqbal Open University, Islamabad; Punjab University, Lahore; Christian College, Lahore; College of Veterinary & Animal Sciences, Jhang; University of Education, Faisalabad; University of Okara and University of Faisalabad and Ghulam Ishaq Khan Institute of Engineering Sciences & Technology, Swabi. We feel proud to announce that this is the only ISO certified laboratory within UAF that helps to improve the analytical/research credibility and authority as well as the overall efficiency. The Central Hi-Tech Laboratory gets management system as ISO-9001:2015 in accordance with TUV, Austria Bureau of Inspection & Certification (Pvt) Ltd. This Laboratory applies quality management system in line with above standard for the scope of "Support and promotion of scientific research through provision of analytical services and skill development through hands-on training on analytical instruments.

PROJECTS

International Center for Development and Decent Work

The International Center for Development and Decent Work (ICDD) of the University of Kassel is a global think tank network which contributes to the fight against global hunger and poverty through research and education.

It is a cluster of excellence created by DAAD with five million euro funding spread over a period of five years to promote academic exchange between North-South and South-South. University of Agriculture, Faisalabad is a member of University of Kassel led ICDD with other members, one each from India, South Africa, Kenya, Brazil and Mexico. The funding includes MS and PhD scholarships, visiting lectureships, grants for collaborative research, scientific meetings and workshop for development and decent work in the partner universities.

It focuses on the United Nations Millennium Development Goal 1 target 2:

"Achieve full and productive employment and decent work for all, including women and young people“.

CAMPUS NEWS

UNIVERSITY OF AGRICULTURE FAISALABAD (UAF)

Environmental Commitment and Sustainability Policy

1. Purpose

The University of Agriculture Faisalabad (UAF) is committed to safeguarding and

improving both local and global climates through its teaching, research, and administrative functions. This policy outlines our dedication to environmental sustainability and responsible practices.

2. Vision Statements

- **Zero Carbon Operations:** UAF aims to achieve carbon neutrality by 2030 for building and fleet energy emissions and by 2050 for transportation and other sources. We will invest in climate-smart initiatives and promote cultural changes to achieve this vision.
- **Enriching Lives:** UAF strives to enrich and transform lives for current and future generations by promoting sustainability.

3. Fundamental Principles

UAF pledges to:

- **Compliance:** Adhere to federal, provincial, and local environmental regulations and standards.
- **Mitigation:** Operate with the goal of minimizing adverse environmental impacts.
- **Resource Stewardship:** Embrace practices that preserve and prudently utilize natural resources.
- **Biodiversity:** Honor and protect biodiversity.
- **Knowledge Dissemination:** Conduct research and academic endeavors that promote sustainable practices, educating students, farmers, agri-value chain actors, and policy practitioners.

4. Implementation and Reporting

- UAF implement and monitor this policy through regular assessments and reporting.
- Any suspected violations should be reported promptly to the relevant authorities.

5. Cultural Change

- UAF encourages a culture of environmental responsibility and awareness among its community members.
- **Diversify Energy Sources:** Expand the use of low and non-carbon energy sources

for power and thermal needs. This includes directed biogas, green power

UAF - Environmental Commitment and Sustainability Policy

2

alternatives from utilities, on-site solar photovoltaics, and energy storage.

Gradually phase out fossil fuels.

- **Energy Efficiency:** Reduce energy consumption through building-level efficiency initiatives. Encourage energy-saving behaviors among occupants.
- **Mitigate Growth Emissions:** Promote building electrification and implement green building practices to address emissions related to growth.
- **Sustainable Project Integration:** View each project as an opportunity to advance sustainable building practices. Integrate features that reduce both capital and lifecycle energy costs.
- **Clean Infrastructure:** Modernize the main campus heating, cooling, and power systems to primarily operate on clean electricity by 2030. This could potentially reduce campus emissions by 60-80%.
- **All-Electric Buildings:** Mandate that new buildings and major modifications not connected to the main campus energy system be all-electric, with no natural gas connection.
- **Efficient Fleet Management:** Enhance fleet vehicle efficiency by improving fuel efficiency and transitioning to less carbon-intensive fuels.
- **Pollutant Reduction:** Address short-lived climate pollutants like black carbon and methane.
- **HFC Phase-Out:** Advocate for the phasing out of hydrofluorocarbons (HFCs) by 2030.
- **Telework and Space Optimization:** Encourage telework options for employees and optimize campus space utilization.
- **Resiliency Workshops:** Participate in workshops on resiliency planning to inform future endeavors.
- **Campus Climate Action:** Reinstate the campus climate action partnership and

steering committee, involving a diverse group of faculty, staff, and students. They will guide carbon reduction, climate justice, resiliency, and adaptation efforts.

- Bicycle Infrastructure: Update the campus bicycle plan to accommodate increased bike parking and install conduit and/or electric vehicle charging equipment where feasible.
- Accessible Campus Housing: Support campus housing initiatives that promote accessibility via walking and transit.

These strategies collectively contribute to UAF's commitment to environmental stewardship and sustainability.

6. Conclusion

By adhering to these principles, UAF aims to contribute positively to the environment and

create a sustainable future.

MERIT CALCULATION Or Merit Criteria

Each candidate should read terms and conditions carefully given below before entry test registration and submission of online admission application.

**TERMS AND CONDITIONS FOR REGISTRATION/APPEARING IN
ENTRY TEST AND SUBMISSION OF ONLINE ADMISSION**

APPLICATIONS TO FIRST DEGREE COURSES DURING THE ACADEMIC SESSION, 2024-25

ENTRY TEST AND ON-LINE SUBMISSION OF APPLICATIONS:

1. Entry Test will be conducted according to the notified schedule at Main Campus, all

Sub-Campuses of the University and all designated centres across the Punjab.

2. The test will be from the Syllabus of Intermediate(Part-I&II) marks with the ratio of

50:50 of the respective test stream approved by the University. Select entry test stream according to the group of studies of Intermediate or equivalent examination,

as after selection of test stream once, no candidate can be allowed to change the same.

The details of degree programs being offered during the session, 2024-25, minimum

eligibility of each and matching entry test streams are given separately on UAF website.

3. Before opening on-line registration portal, candidate should keep original/copy of

CNIC of own and father or its numbers, Matriculation and Intermediate(Part-I) result

cards and other necessary documents, with him. While registering:

i. use your own CNIC/B-Form number on Registration form, as it cannot be changed after Registration. Please remember and save your personal username/email ID and password for future use. It should be noted that all correspondence and future development towards admission or trouble shooting if any shall be made with the same username/email ID and password.

ii. read the instructions of Entry Test carefully and then fill up your personal

information. Be careful that correct information according to available documentary evidence be filled up, as it cannot be changed after its online submission. Then print out your Bank Challan. Deposit prescribed fee into the designated Bank(s) branch prior or on the last date. You will personally be responsible for submission of any wrong information/data.

iii. You are advised to apply for registration on the same date after depositing the fee

into the bank.

4. After depositing dues, open your portal using your Username/email ID and Password

fill up the entry test registration form.

5. Select Entry Test Stream carefully according to F.Sc. subjects, as it cannot be changed

afterwards and print your Roll No slip which have your roll number, time, date, selected test stream and center to appear in the test according to the schedule. The

result of entry test(s) will be available on the university website according to the announced schedule.

6. The details of degree programs being offered during the academic session, 2024-25,

and minimum eligibility criteria of each are given separately on UAF website.

However, the University reserves the right to revise any of the eligibility criteria at

any time without assigning any reason.

-: 2 :-

7. While registration of entry test, you also need to submit online admission application

form separately. If you fail to submit the above form you will not be considered for

admission under any circumstances. A candidate applying for admission to a

campus degree will be considered by default for admission to all degree programs of the respective Campus /Sub Campus, subject to fulfillment of minimum eligibility criteria.

8. Merit will be determined on the basis of data/information provided by the candidate

through on-line system i.e. marks obtained in Matric, Intermediate(Part-I) and Entry

Test with the ratio of 30:30:40 respectively, according to following given example:-

MarksObtained Multipliedbyprescribed% DividedbyTotal Marks

900	x30	1100
490	x30	550
80	x40	100

Matric 24.545 aggregate

Intermediate(Part-I) 26.727 aggregate

Entry Test 32.000 aggregate

Weighted percentage: 83.272%

1.1 District/Residential category of a candidate will be based on matric school address mentioned on his matric certificate.

1.2 Candidate needs to submit semester dues on or before due date otherwise his/her seat will be given to the next candidate falling on merit.

9. Admission of a candidate will be purely on provisional basis, which will be subject

to declaration of combined Intermediate result. In case candidate secure marks within

the minimum eligibility criteria of each/selected degree (excluding 20 marks of Hafiz-e-Quran), he will continue studies. In case, marks are less than the minimum

eligibility criteria or failed to pass all the subjects of Intermediate, the admission shall

be considered as cancelled without any prior intimation/notice. In this eventuality,

the dues deposited will be refunded on submission of proper application to the Treasurer's office as per percentage and time limit given below:-

% age of dues deposited Time limit

Full (100%) refund of total dues/hostel dues
deposited excluding admission fee

Up to 7th day of convene of classes or
depositing of dues whichever is later(*)

Half (50%) refund of total dues/hostel dues
deposited excluding admission fee

From 8th -- 15th day of convene of classes or
depositing of dues whichever is later(*)

No refund From 16th day of convene of classes or
depositing of dues whichever is later(*)

* in case where dues were deposited after commencement of classes, the next day from

depositing dues will be considered as date of convene of classes.

10. In case any:-

(i) candidate quits admission at his/her own under any circumstances, the deposited dues shall not be refunded.

(ii) information/data/document provided/indicated in on-line form or submitted thereafter in the University found BOGUS/TAMPERED/ FABRICATED etc. at any stage of studies, the admission shall be cancelled retrospectively without assigning any reason and the deposited fee shall not be refunded.

Certified that I have read the above instructions, and I will abide by all the given

Rules/Regulations or those framed hereinafter. Therefore, I may be allowed to submit on-line

entry test registration and thereafter admission application form.
